27th Floor
Toronto, Ontario, M4P 1E4

Attn: Kirsten Walli, Board Secretary

Dear Ms. Walli:

Re: EB-2012-0031 – Hydro One Transmission – Interim ETS Rate Treatment

Pursuant to Procedural Order #9, these are the submissions of School Energy Coalition (“SEC”) with respect to the treatment of the Export Transmission Service (“ETS”) Rate between January 1, 2013 and the date of the Board’s decision on Issue 23. SEC has reviewed the letter from the Association of Power Producers of Ontario (“APPRO”) and Hydro-Quebec Energy Marketing (“HQEM”) and agrees that the Board should clarify that any change in the ETS Rate as a result of this proceeding will not be retroactively adjusted back to January 1, 2013. In addition to market participants, ratepayers also benefit from overall price certainty in the export market.

Yours very truly,
Jay Shepherd P.C.
