Re: Hydro One Networks Inc.
2013-2014 Transmission Rates Application
Board File No. EB-2012-0031

Dear Ms. Walli:

In accordance with Procedural Order No. 9 dated November 29, 2012 regarding the Export Transmission Service Rates and the Board's declaration of transmission rates as interim, AMPCO has reviewed the submissions of APro, HQ Energy Marketing Inc., Energy Probe and SEC and agrees that the Board should clarify that the ETS charge will not be retroactively adjusted in 2013 back to January 1, 2013.

Please do not hesitate to contact me if you have any questions or require further information.

Sincerely yours,

(ORIGINAL SIGNED)
