1. Regulatory Component

Ref: Rate Generator Model

A portion of Sheet "4. Current Tariff Schedule" from the Rate Generator Model is reproduced below.

Board staff notes that the Regulatory Component of Monthly Rates and Charges, i.e. Wholesale Market Service Rate, Rural Rate Protection Charge and Standard Supply Service Administrative Charge do not apply to the Embedded Distributor Service Classification. Board staff further notes that this is reflected in Cambridge and North Dumfries Hydro's ("CND") current tariff¹.

If the charges provided in the Rate Generator Model is an error, Board staff will make the relevant correction.

The charges provided in the Rate Generator Model as indicated above are included in error, as they do not apply to the Embedded Distributor Service Classification. CND would appreciate Board staff making the relevant correction.

2. Rate Riders for Deferral/Variance Account Disposition (2013) and Global Adjustment Sub-Account Disposition (2013)

3. Group 1 Accounts

Ref: Rate Generator Model

A portion of Sheet "5. 2013 Continuity Schedule" from the Rate Generator Model is reproduced below.

Board staff notes that on page 8 of CND's 2011 IRM Decision (EB-2010-0068)2, the Board directed the disposition of December 31, 2009 Group 1 account balances plus projected carrying charges to April 30, 2011. Board staff further notes that columns BO and BW. i.e. "Board Approved Disposition during 2011" related respectively to principal and interest in the continuity schedule do not reflect the Board's decision.

a. Please explain this discrepancy and update the evidence where required.

RESPONSE

CND apologizes for the oversight and has entered the Board Approved Disposition in 2011 in columns BO and BW and other cells as appropriate. The revised Rate Generator Model is attached as Appendix A.

Cambridge and North Dumfries Hydro Inc. 2013 Electricity Distribution Rates EB-2012-0111 Responses to Board Staff Interrogatories December 14, 2012

CND confirms that the correct "Non-Loss Adjusted Metered kWh" provided for the Street Lighting rate class is 10,011,985 kWh. The figure reported by CND in its 2011RRR 2.1.5 report however, should be 10,011,985 kWh and not 10,044,985 kW as was submitted. CND has now corrected the RRR filing, as the system was opened to allow the change on December 13, 2012.

b. If the input into the RTSR model is an error, Board staff will make the necessary correction.

Please complete the following continuity schedule for the following Deferral / Variance Accounts. Enter information into green cells only.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or RM) you received approval for the December 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. This will allow for the correct starting point for the 2011 opening balance columns (for both principal and interest) without requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

Please refer to the footnotes for further instructions.

For all Board-Approved dispositions, please ensure that the disposition amount has the same sign (e.g. debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related Board decision.

Please provide explanations for the nature of the adjustments. If the adjustment relates to previously Board Approved disposed balances, please provide amounts for adjustments and include supporting documentations.

For RSVA accounts only, report the net variance to the account during the year. For all other accounts, record the transactions during the year. If the LDC's 2013 rate year begins January 1, 2013, the projected interest is recorded from January 1, 2012 to

If the LDC's 2013 rate year begins January 1, 2013, the projected interest is recorded from January 1, 2012 to December 31, 2011 belance adjusted for the disposed belances approved by the Board in the 2012 rate decision. If the LDC's 2013 rate year begins May 1, 2013 the projected interest is recorded from January 1, 2012 to April 3, 2013 or the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision.

Applicants that did not have the balance in Account 1521 cleared by the Board in the 2012 rate proceedings are expected to file to dispose of Account 1521 in the 2013 rate proceedings. No Account 1521 balance is to be filed for clearance in the 2013 rate proceedings for those distributors that had account 1521 cleared by the Board in the 2012 rate proceedings.

In accordance with section 8 of the Special Purpose Charge ("SPC") Regulation, Ontario Regulation 66/10, distributors were required to apply to the Board no later than April 15, 2012 for an order authorizing the distributor to clear the balance in Account 1521. As per the Board's April 23, 2010 letter, the Board statel that it expected that requests for disposition of the balance in Account 1521 were to be addressed as part of the proceedings to set rates for the 2012 rate year, except in cases where this approach would result in non-compliance with the timeline set out in section 8 of the SPC Regulation.

Include Account 1595 as part of Group 1 accounts (lines 31, 32 and 33) for review and disposition if the recovery (or refund) period has been completed, do not include the respective belance in Account 1595 for disposition at this time.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or RM) you received approval for the December 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. This will allow for the correct starting point for the 2011 opening balance columns (for both principal and interest) without requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

For all Board-Approved dispositions, please ensure that the disposition amount has the same sign (e.g. debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related Board decision.

Please provide explanations for the nature of the adjustments. If the adjustment relates to previously Board Approved disposed balances, please provide amounts for adjustments and include supporting documentations.

For RSVA accounts only, report the net variance to the account during the year. For all other accounts, record the transactions during the year. If the LDC's 2013 rate year begins January 1, 2013, the projected interest is recorded from January 1, 2012 to

If the LDC's 2013 rate year begins May 1, 2013 the projected interest is recorded from January 1, 2012 to April 30, 2013 on the December 31, 2011 belance adjusted for the disposed belances approved by the Board in the 2012 rate decision.

Applicants that did not have the balance in Account 1521 cleared by the Board in the 2012 rate proceedings are expected to file to dispose of Account 1521 in the 2013 rate proceedings. No Account 1521 balance is to be filed for clearance in the 2013 rate proceedings for those distributors that had account 1521 cleared by the Board in the 2012 rate proceedings.

In accordance with section 8 of the Special Purpose Charge ("SPC") Regulation, Ontario Regulation 66/10, distributors were required to apply to the Board no later than April 15, 2012 for an order authorizing the distributor to clear the balance in Account 1521. As per the Board's April 23, 2010 letter, the Board statel that it expected that requests for disposition of the balance in Account 1521 were to be addressed as part of the proceedings to set rates for the 2012 rate year, except in cases where this approach would result in non-compliance with the timeline set out in section 8 of the SPC Regulation.

Include Account 1595 as part of Group 1 accounts (lines 31, 32 and 33) for review and disposition if the recovery (or refund) period has been completed, if the recovery (or refund) period has not been completed, do not include the respective belance in Account 1595 for disposition at this time.
