Dear Board Secretary:

It has come to our attention that there is an error in our RRR 2.1.5 report December 2011. Specifically the number of billed kW for Greater than 50 Rate Class is quoted as 3,940. The amount should be 20,694. This incorrect information will affect our IRM 2013 application.

We request changes be made in the RRR Conservation Demand Report and if this could be completed by Board Staff.

Atikokan's RTSR Model V_3_2012_1204 that has been submitted for our IRM 2013 Rate Application is correct.

The RTSR Model number has been updated.

Thank you,
