Subject: EB-2012--0442 observer status request

To Whom It May Concern:

I, Rose Van Miltenburg would like to request observer status of the hearing of Varna Wind at the Ontario Energy Board case #EB-2012-0442. As an affected landowner along the proposed Centennial Rd transmission line route I have several reservations about the proposed line and how Nextera Energy is handling the situation. Please note that if the hearing becomes oral may I also request the minutes of the hearing. Thank you for considering my requests.
