Subject: Notice of Revised Applications, Leave to Construct a Natural Gas Pipeline in Gorham Township in the District of Thunder Bay, Certificate of Convenience for Gorham Township in the District of Thunder Bay

Dear Sir/Madam

My husband and I are landowners in the City of Thunder Bay. We have received the above mentioned Notices via courier recently as we are landowners where this proposed pipeline is to be constructed. You have made application to supply natural gas to the inhabitants of Gorham Township in this Notice. Our home is located on Gorevale Road in the City of Thunder Bay. This road is the "City Limits". Our home is on the south side of Gorham Road, the other side of the road is in Gorham Township. Our question is: Are the residents of Gorevale Road who reside in the City of Thunder Bay encompassed in this Certificate of Convenience as we are not presently served by natural gas. We would be most interested in having natural gas service here as we are presently heating our home with oil and the costs are astronomical.

Sincerely
Robert and Helena Strandberg
