Dear Mr. Vegh,

**Re: Pearson International Fuel Facilities Corporation
Authority to Construct Jet Fuel Pipeline
Pursuant to Section 101 of the OEB Act
Board File Number: EB-2008-0091**

This will acknowledge receipt on April 21, 2008 of your application for the above-noted project. The Board has assigned file number EB-2008-0091 to this proceeding. Please refer to this file number in all future correspondence to the Board regarding this matter.

You have indicated that Pearson International Fuel Facilities Corporation must start construction within the lands owned by the Greater Toronto Airport Authority no later than May 2, 2008 and start construction under Derry Road in the Region of Peel and City of Mississauga road allowances by June 9, 2008.

The actual time required to complete the process will depend on a number of factors including whether the Board proceeds by way of an oral or written hearing, extent of party involvement, major issues that arise etc. That in turn will affect the date by which a decision is rendered in this matter. As you are aware, the next step in the process is the issuance of a Notice of Application and the scheduling of the proceeding.

If you have any questions or require further information, please contact Robert Caputo, Project Advisor, Market Operations at 416-440-7632 or e-mail Robert.caputo@oeb.gov.on.ca.

Yours truly,
