

EB-2012-0467

IN THE MATTER OF the *Ontario Energy Board Act*,
1998, S.O. 1998, c. 15, Schedule B;

AND IN THE MATTER OF an application by SunE
Norfolk Bloomsburg LP for an electricity generator
licence.

By delegation, before: Adrian Pye

INTERIM DECISION AND ORDER
January 10, 2013

SunE Norfolk Bloomsburg LP filed an application on December 19, 2012 with the Ontario Energy Board under section 60 of the *Ontario Energy Board Act, 1998* (the "Act") for an electricity generator licence as a Feed-In Tariff Program participant.

As prescribed under section 57 of the Act, all entities generating electricity in the Ontario electricity market are required to hold a licence. In a letter filed on January 10, 2013, the applicant requested an interim licence. The applicant stated that the commercial operation date for the generation facility is scheduled for February 8, 2013, and that it has scheduled a Dead Zone Transfer Trip Test with Norfolk Power Distribution Inc. on January 16, 2013 for which it requires an electricity generation licence.

Considering the time required to process the application in accordance with the Board's established practice and procedures, and considering the applicant's need for a licence to carry out activities as an electricity generator, it has been found to be in the public interest to issue an interim order under sections 21(4)(b) and 21(7) of the Act granting the requested electricity generator licence, pending the final disposition of the matter.

The applicant is reminded that this interim decision does not constitute a final decision on the application.

IT IS THEREFORE ORDERED THAT:

An electricity generation licence is granted, on an interim basis, on such conditions as are contained in the attached licence. The licence will be valid until April 9, 2013, or until the final determination of the electricity generation licence application, whichever is earlier.

DATED at Toronto, January 10, 2013

ONTARIO ENERGY BOARD
