Attention: Board Secretary

I, Tony Van Miltenburg would like to request observer status of the hearing of the Varna Wind at the Ontario Energy Board case # EB-2012-0442. As an affected landowner along the Centennial Road transmission route I have several reservations about the proposed route and how Nextera has been handling the situation. Please note if the hearing becomes oral I would also request the minutes of the meeting. Thank you for considering my requests.

Tony Van Miltenburg
