## Re: 2013 IRM Application EB-2012-0131

Dear Ms. Walli:

Hearst Power Distribution Company Limited ("Hearst Power") hereby files an addendum to its reply to Board staff submission with respect to its 2013 IRM Application for rates effective May 1, 2013.

As a result of further review of the 2011 Group 1 EDDVAR Deferral Variance accounts and subsequent discovery of an interpolation error, Hearst Power has determined that the final claim amount is below threshold and respectfully request that disposition not continue in this application.

This document is being filed pursuant to the Board's e-Filing Services.

Yours Truly,

# Addendum to Reply to Board Staff Submission

3

Hearst Power has received a request from Board staff to clarify some questions with respect to
its previous reply submission. As a result of this further review Hearst Power has determined
that an interpolation error has overstated its revised claim. Hearst Power respectfully request
that the disposition of Group 1 EDDVAR Deferral/Variance accounts not proceed in this
application.

Hearst Power hereby provides an addendum to our reply submission dated December 12, 2012,
as initiated by inquiries by Board staff, to be included with the IRM EB-2012-0131 for the
following:

- 131.Please provide further explanation regarding the \$59,965 residual difference.14I.e. Is this amount the variance in columns "BN" and "BO" of the Rate
- 15 Generator for accounts1588 and 1590 in the old version vs. the new version?
- 16 **Response:**
- 17
- Please reference Attachment 1.1 which shows the high level reconciliation to calculatethe \$59,965 change.
- 20 Please reference Attachment 1.2 which reconciles the change by columns comparing21 the original application to the revised application.
- 22 The significant change is the correction of Account 1588 Global Adjustment for \$
- 23 72,297.78 which was omitted in error in the original submission.
- 24 Three entries were interpolated and corrected.
- 25 The remainder was the result of changes in interest calculation.

- Please reference Attachment 1.3 which shows that a interpolation error was discovered
   during this review resulting from the 2011 disposition. Hearst hereby submits a revised
   2013 IRM Rate generator correcting this error.
- 5 2. Please indicate that the revised claim of \$(89,804) is the correct claim and 6 that the Board should clear this amount in Hearst Power's opinion.
- 8 Response:
- 9

4

As noted in 1 above Hearst Power determined that an additional interpolation error occurred in the 2011 OEB disposition entry. As a result of this error the final balance presented for disposition is (\$77,704) which results in the claim to be less than threshold. Please reference attachment 1.4 and amended 2013 IRM Rate Generator. Hearst Power respectfully requests that disposition of the Group 1 Deferral Variance accounts not continue in this application.

- 16
- Please include that a third party accounting firm (indicate which firm) has
  reviewed or audited the continuity schedule and indicate the results of the
  review.

## 20 Response:

- 21
- Hearst Power confirms that Collins Barrow acts as the third party accounting firm for financial statement audit purposes.
- 24
- 4. If you agree, please also indicate that the revised amount in column BN/BO is
  the correct amount to be incorporated into the revised claim of (\$89,804) --as it matches the deferral and variance account balances approved in the
  2010 rates decision issued in 2011. Therefore the amount of \$59,965

- between the old continuity schedule and the revised continuity schedule
   should not be considered to be an issue as the amounts recorded in the
   revised continuity schedule are the correct numbers.

Hearst Power Distribution Co. Ltd.

Please complete the following continuity schedule for the following Deferral / Variance Accounts. Enter information into green cells only.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or IRM) you received approval for the December 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. This will allow for the correct starting point for the 2011 opening balance columns (for both principal and interest) without requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

Please refer to the footnotes for further instructions.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or IRM) you received approval for the December 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. This will allow for the correct starting point for the 2011 opening balance columns (for both principal and interest) without requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

For all Board-Approved dispositions, please ensure that the disposition amount has the same sign (e.g: debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related Board decision.

Please provide explanations for the nature of the adjustments. If the adjustment relates to previously Board Approved disposed balances, please provide amounts for adjustments and include supporting documentations. For RSVA accounts only, report the net variance to the account during the year. For all other accounts, record the transactions during the year.

If the LDC's 2013 rate year begins January 1, 2013, the projected interest is recorded from January 1, 2012 to December 31, 2012 on the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision. If the LDC's 2013 rate year begins May 1, 2013 the projected interest is recorded from January 1, 2012 to April 30, 2013 on the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision.

Applicants that did not have the balance in Account 1521 cleared by the Board in the 2012 rate proceedings are expected to file to dispose of Account 1521 in the 2013 rate proceedings. No Account 1521 balance is to be filed for clearance in the 2013 rate proceedings for those distributors that had account 1521 cleared by the Board in the 2012 rate proceedings.

In accordance with section 8 of the Special Purpose Charge ("SPC") Regulation, Ontario Regulation 66/10, distributors were required to apply to the Board no later than April 15, 2012 for an order authorizing the distributor to clear the balance in Account 1521. As per the Board's April 23, 2010 letter, the Board stated that it expected that requests for disposition of the balance in Account 1521 were to be addressed as part of the proceedings to set rates for the 2012 rate year, except in cases where this approach would result in non-compliance with the timeline set out in section 8 of the SPC Regulation.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or IRM) you received approval for the December 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. For all Board-Approved dispositions, please ensure that the disposition amount has the same sign (e.g: debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related Board decision.

Please provide explanations for the nature of the adjustments. If the adjustment relates to previously Board Approved disposed balances, please provide amounts for adjustments and include supporting documentations. For RSVA accounts only, report the net variance to the account during the year. For all other accounts, record the transactions during the year.

If the LDC's 2013 rate year begins January 1, 2013, the projected interest is recorded from January 1, 2012 to December 31, 2012 on the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision. If the LDC's 2013 rate year begins May 1, 2013 the projected interest is recorded from January 1, 2012 to April 30, 2013 on the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision.

Applicants that did not have the balance in Account 1521 cleared by the Board in the 2012 rate proceedings are expected to file to dispose of Account 1521 in the 2013 rate proceedings. No Account 1521 balance is to be filed for clearance in the 2013 rate proceedings for those distributors that had account 1521 cleared by the Board in the 2012 rate proceedings.

In accordance with section 8 of the Special Purpose Charge ("SPC") Regulation, Ontario Regulation 66/10, distributors were required to apply to the Board no later than April 15, 2012 for an order authorizing the distributor to clear the balance in Account 1521. As per the Board's April 23, 2010 letter, the Board stated that it expected that requests for disposition of the balance in Account 1521 were to be addressed as part of the proceedings to set rates for the 2012 rate year, except in cases where this approach would result in non-compliance with the timeline set out in section 8 of the SPC Regulation.
