Dear Ms. Walli:

Re: EB-2012-0002 – Responses to Interrogatories

Attached please find OPG's responses to interrogatories. This response package is organized by issue rather than intervenor as required by Procedural Order #1. As such the package not only contains responses to interrogatories submitted by intervenors, but also responses to Board Staff interrogatories which were previously filed on December 7, 2012. This package includes responses to all interrogatories except SEC 6, 13 and 20. OPG is actively working on the answers to these three questions and will respond as and when the responses are complete, but in any event no later than January 16, 2013.

As noted in my letter of December 7, 2012, certain of the interrogatories would benefit from updated financial information, particularly those dealing with pension and OPEB costs based on the actual discount rates to be established at the end of 2012. Prior to the oral hearing, OPG plans to file an update to its evidence to reflect material changes and will update the relevant interrogatory responses at that time. This will be done in February 2013.

Also included are non-confidential versions of two responses, L-2-2 AMPCO-7 and L-1-7 SEC-5, for which OPG is seeking confidential treatment of parts of the responses in accordance with Rule 10 of the Ontario Energy Board's (OEB) *Rules of Practice and Procedure* and section 5.3 of the Board's *Practice Direction on Confidential Filings*. Confidential versions of these responses and OPG's reasons for seeking this treatment are transmitted under separate cover.

Two paper copies are provided with this letter, as per Procedural Order #1. OPG is also submitting this document on the Regulatory Electronic Submission System ("RESS"). Intervenors have been sent electronic copies via email.

Best Regards,
