To The Board Secretary,

We are writing to formally request an amendment to Electricity Generator License EG-2011-0438, previously issued from the Ontario Energy Board to Metrolinx on February 10, 2012. We currently own and operate the GO Transit Streetsville Bus Facility located at 6190 Mississauga Road Mississauga, Ontario L5N 1A7. We have constructed a new facility, GO Transit Oshawa Bus Facility, located at 1002 Thornton Road South Oshawa, Ontario L1J 7E2. This site is owned by Metrolinx. We request that our current license be amended to include this new facility.

The approximate value of this project is \$50,000,000.00, funded by Metrolinx. The facility became operational on December 1, 2012. As an additional note, neither the Go Transit Streetsville Bus Facility nor the Go Transit Oshawa Bus Facility is currently operating under the OPA Standard Offer Program contract.

Thank you in advance for consideration of this request.

Sincerely yours,

Peter Stiel,
Supervisor, Electrical Maintenance
