13 14 Hearst Power hereby provides an addendum to our reply submission dated December 12, 2012, as initiated by inquiries by Board staff, to be included with the IRM EB-2012-0131 for the

10 following:

Please provide further explanation regarding the \$59,965 residual difference.
 I.e. Is this amount the variance in columns "BN" and "BO" of the Rate
 Generator for accounts 1588 and 1590 in the old version vs. the new version?

23

- Please reference Attachment 1.1 which shows the high level reconciliation to calculate the \$59,965 change.
- Please reference Attachment 1.2 which reconciles the change by columns comparing the original application to the revised application.
 - The significant change is the correction of Account 1588 Global Adjustment for \$ 72,297.78 which was omitted in error in the original submission.
- Three entries were interpolated and corrected.
 - The remainder was the result of changes in interest calculation.

5

 Please include that a third party accounting firm (indicate which firm) has reviewed or audited the continuity schedule and indicate the results of the review.

4. If you agree, please also indicate that the revised amount in column BN/BO is the correct amount to be incorporated into the revised claim of (\$89,804) --- as it matches the deferral and variance account balances approved in the 2010 rates decision issued in 2011. Therefore the amount of \$59,965 between the old continuity schedule and the revised continuity schedule should not be considered to be an issue as the amounts recorded in the revised continuity schedule are the correct numbers.

Please reference Attachment 1.3 for reconciliation of the deferral and variance account balances approved in the 2010 rates decision issued in 2011.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or IRM) you received approval for the December 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. This will allow for the correct starting point for the 2011 opening balance columns (for both principal and interest) without requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

Please refer to the footnotes for further instructions.

For all Board-Approved dispositions, please ensure that the disposition amount has the same sign (e.g. debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related Board decision.

Please provide explanations for the nature of the adjustments. If the adjustment relates to previously Board Approved disposed balances, please provide amounts for adjustments and include supporting documentations. For RSVA accounts only, report the net variance to the account during the year. For all other accounts, record

the transactions during the year. If the LDC's 2013 rate year begins January 1, 2013, the projected interest is recorded from January 1, 2012 to December 31, 2012 on the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision. If the LDC's 2013 rate year begins May 1, 2013 the projected interest is recorded from January 1, 2012 to April 30, 2013 on the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision.

Applicants that did not have the balance in Account 1521 cleared by the Board in the 2012 rate proceedings are expected to file to dispose of Account 1521 in the 2013 rate proceedings. No Account 1521 balance is to be filed for clearance in the 2013 rate proceedings for those distributors that had account 1521 cleared by the Board in the 2012 rate proceedings.

In accordance with section 8 of the Special Purpose Charge ("SPC") Regulation, Ontario Regulation 66/10, distributors were required to apply to the Board no later than April 15, 2012 for an order authorizing the distributor to clear the balance in Account 1521. As per the Board's April 23, 2010 letter, the Board stated that it expected that requests for disposition of the balance in Account 1521 were to be addressed as part of the proceedings to set rates for the 2012 rate year, except in cases where this approach would result in non-compliance with the timeline set out in section 8 of the SPC Regulation.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or IRM) you received approval for the December 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. This will allow for the correct starting point for the 2011 opening balance columns (for both principal and interest) without requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.
