

January 30, 2013

Kirsten Walli, Board Secretary
Ontario Energy Board
P.O. Box 2319,
27th Floor, 2300 Yonge Street
Toronto, ON M4P 1E4

Dear Ms. Walli

**Re: Fort Frances Power Corporation
2014 Cost of Service Rate Application
Confirmation of Application**

Fort Frances Power Corporation (FFPC) is listed in Appendix A in the Ontario Energy Board's December 11, 2012 letter as a distributor scheduled to have their rates rebased for 2014.

FFPC confirms that we intend to file as per the letter, under the new Fourth Generation Incentive Rate-setting method, for rates effective May 1, 2014. FFPC intends to complete a 2014 cost of service application to be submitted by October 1, 2013.

We would also like to request a meeting, preferably mid-April, 2013, with the Board staff case manager and potential intervenors to discuss the key elements of our application. These elements include an asset management plan, capital plan, load forecast and an OM&A review. FFPC believes that this meeting would prove beneficial for all parties involved in this process.

Sincerely,

FORT FRANCES POWER CORPORATION

Joerg Ruppenstein
President and CEO
