Attention: Ms. Kirsten Walli,  
Board Secretary

Dear Ms. Walli:

**Re: Intervenor Status and Cost Eligibility Request on Behalf of the Building Owners  
and Managers Association of Greater Toronto (BOMA) for EB-2013-0029:  
Review of Certain Amendments to Market Rules made by the IESO**

---

The Building Owners and Managers Association of Greater Toronto (BOMA) seeks intervenor status and cost award eligibility in the above noted proceeding.

BOMA's members have long supported renewable generation throughout Ontario. The purchase of renewable energy is one of several ways in which our members can obtain LEED, Gold or Silver accreditation, and achieve their general sustainability goals, both of which are important to their businesses. Therefore, access by renewable generation to the IESO market on a fair basis is important to BOMA.

BOMA represents over 800 Ontario Property and Facility Owners, Managers, Developers, Leasing Agents, and Commercial Real Estate Professionals. Its members account for 80 per cent of all commercial and industrial real estate companies in Ontario. BOMA's members are large consumers of electricity in Ontario.

Over the years, BOMA has been active in protecting and advancing the interests of its members on such important policy issues as energy pricing and supply, property taxes, labour requirements, building materials and equipment regulations. BOMA continues to work at all levels of government providing a voice for Commercial Property owners throughout Ontario.

BOMA has been a major and constructive participant in numerous previous cases. As a representative of a large sector of energy consumers in Ontario, the commercial and industrial building owners and generators, BOMA seeks a cost award in this proceeding. BOMA requests that further communications with respect to this matter be sent to the following parties:

Thomas Brett, Partner	Marion Fraser, President
