

Your Home Town Utility

February 20th, 2013

Ms. Kirsten Walli Board Secretary Ontario Energy Board P.O. Box 2319 2300 Yonge Street, Suite 2700 Toronto, ON M4P 1E4

Dear Ms. Walli,

Re: 2013 IRM Rate Application EB-2013-0018

Please find enclosed an update of Erie Thames Powerlines completed 2013 IRM application. At the request of Board staff Erie Thames is removing its motion for a change to its stretch factor applied in the application and replaced it with the same request as part of its manager's summary.

The application is being re-submitted through the Board's electronic filing portal and two paper copies will follow via courier.

Should you have any questions, or concerns, please contact myself at Erie Thames Powerlines Corporation at 519-485-1820 ext. 254, or via email at <u>gpettit@eriethamespower.com</u>.

Respectfully,

Graig Pettit Manager of Finance and Regulatory Affairs Erie Thames Powerlines Corporation. cc. Chris White President Erie Thames Powerlines **IN THE MATTER OF** the *Ontario Energy Board Act, 1998,* being Schedule B to the *Energy Competition Act, 1998,* S.O. 1998, c.15;

AND IN THE MATTER OF an Application by Erie Thames Powerlines Corporation for an Order or Orders approving or fixing a proposed schedule of adjusted distribution rates, retail transmission rates and other charges, effective May 1, 2013.

APPLICATION

- Erie Thames Powerlines Corporation (the "Applicant") hereby applies to the Ontario Energy Board (the "Board") pursuant to section 78 of the Ontario Energy Board Act, 1998 for approval of its proposed adjusted distribution rates, retail transmission rates and other charges for the period May 1, 2013 through April 30, 2014.
- 2. The Applicant has followed the Board's "Filing Requirements for Incentive Regulation Mechanisms Rate Applications", as revised on June 28, 2012.
- 3. The Board issued a Decision and Order in the Applicant's 2012 COS Rate Proceeding (EB-2012-0121) on November 29th, 2012. The Board approved the corresponding Tariff of Rates and Charges through a Rate Order issued on December 21st, 2012. This application is the first in the applicant's IRM process following the approved COS.
- 4. This Application, pre-assigned Board file number EB-2013-0018, proposes the next year of annual adjustments to the Rates and Charges pursuant to the Board's Third Generation Incentive Regulation Mechanism methodology.
- 5. The Applicant has utilized the Board's updated models as posted on its website with all of the appropriate fixes included. Board Staff has provided the Applicant with certain amendments to the standard Board models in order to facilitate a filing that is consistent with the Applicant's Board-approved rate structure and simultaneously utilizes the Board's models. The Applicant acknowledges that further adjustments and updates will be made post-submission by Board Staff in accordance with the Filing Requirements. The Applicant understands that it will be made aware of these adjustments and updates and have an opportunity to respond, if necessary, prior to a Board Decision or Order.
- 6. This Application will be supported by written evidence, including:
 - Manager's Summary,
 - 2012 Tariff Sheet as provided in the 2012 Rate Order,
 - 2013 IRM Rate Generator Model,
 - 2013 IRM Tax Sharing Model,

- 2013 Tariff Sheet from the Rate Generator, and
- 2013 Bill Impacts from the Rate Generator.
- 7. The written evidence will be pre-filed and may be amended from time to time, prior to the Board's final Decision on this Application.
- 8. The Applicant requests that, pursuant to Section 34.01 of the Board's *Rules of Practice and Procedure*, this proceeding be conducted by way of written hearing.
- 9. The Applicant intends to publish the Board's Notice of Application in The London Free Press with a daily circulation of 77,000 that spans Erie Thames Powerlines entire service territory.
- 10. The Applicant requests that a copy of all documents filed with the Board by each party be served on the Applicant, as follows:

Erie Thames Powerlines Corporation P.O. Box 157 143 Bell Street, Ingersoll, ON, N5C 3K5 Telephone: (877) 850-3128 Fax: (519-485-5838 Email: <u>oeb@eriethamespower.com</u>

Dated at Ingersoll Ontario, this 1st day of February 2013

ERIE THAMES POWERLINES CORPORATION

MANAGER'S SUMMARY

The Applicant, Erie Thames Powerlines Corporation, has followed the methodology set out in "Chapter 3 of the Filing Requirements for Transmission and Distribution Applications: Filing Requirements for Incentive Regulation Mechanisms for Annual Rate Adjustments", as revised up to and including June 28, 2012 ("Filing Requirements"). All rate adjustments sought are the product of the operation of the 2013 IRM Rate Generator Model, and the 2013 IRM Tax Sharing Model all of which were issued by the Board. The Applicant anticipates the Board will further adjust rates in accordance with the Filing Requirements, especially as pertains to the Price Cap Adjustment and Retail Transmission Service Rates.

2012 Tariff Sheet

The Applicant has set out at Appendix A, a copy of the 2012 Tariff Sheet from EB-2012-0121, which was issued in its final form on December 21st, 2012. The rates and charges set out in that tariff sheet form the starting point from which the 2013 rates and charges are calculated using the Board's 2012 IRM Models.

2013 IRM Rate Models

The Applicant completed the 2013 IRM Models, as set out at:

- Appendix B (2013 IRM Rate Generator Model),
- Appendix C (2013 IRM Tax Sharing Model) and

Any amendments to the functionality or operations of the 2013 IRM Models were performed by Board Staff and returned to the Applicant in locked format.

Price Cap Adjustment – GDP-IPI

The Applicant acknowledges that the Price Cap will be adjusted by the Board. The Board will replace the inflation proxy with the actual GDP-IPI, in accordance with the Filing Requirements. The Applicant reserves the right to subsequently review this adjustment and respond accordingly.

Price Cap Adjustment – Stretch Factor

In addition to the GDP-IPI adjustment, the Applicant notes that the Board intends to replace the Stretch Factor default value with a value based on the data and determinations from EB-2006-0268 (Comparison of Ontario Electricity Distributor Costs) and EB-2007-0673 (3rd Generation Incentive Regulation). The Applicant notes that with respect to the stretch factor to be applied in this proceeding given its unique circumstances, has requested a stretch factor of).2%. The applicant has applied this 0.2% stretch factor requested in the models provided in this application. The following paragraphs details the requested treatment and the rational for this request.

The default stretch factor assigned by the Board to a utility is based upon a report which was historically prepared by Pacific Economics Group ("**PEG**"). The PEG Report was used to assign stretch factors based upon a utility's ranking within a deemed cohort of similar utilities. The process used by the Board effectively assumes past performance is indicative of the performance of the utility for the prospective period for incentive rate making. However, where extraordinary and intervening events have occurred, such events are not captured through the historical analysis provided.

The OEB issued the most recent report, prepared by Power System Engineering, Inc., on November 28, 2012 (the "**Report**"). The Report is typically used by the Board in determining stretch factors for utilities filing IRM applications for rates effective May 1, 2013. The Report is based upon information provided for the years 2009, 2010 and 2011. The Report puts Erie Thames in the Third Cohort or the bottom of performers and would assign a stretch factor of 0.6%.

Given the events, Erie Thames is of the view that it is not appropriate to rely upon the Report in the present circumstances for the following reasons:

- a) 2009 Strike:
 - i) In 2009, Erie Thames was the subject of a 19 week strike and so the expenditures in 2009 are not reflective of the efficiency of expenditures by Erie Thames.
 - ii) Following the strike, Erie Thames started to re-organize itself from a virtual utility with 2 employees to a more traditional utility with approximately 45 full-time equivalents.
- b) 2011 Merger
 - i) In proceeding EB-2010-0386 the Board approved the amalgamation of Erie Thames with Clinton Power Corporation ("CPC") and West Perth Power Inc. ("WPPI"). Erie Thames had identified approximately \$91,700 in savings that would result from the merger.
 - ii) On June 1, 2011, Erie Thames amalgamated with CPC and WPPI. As such, the savings from the amalgamation would not be evident until 2012 and beyond.
 - iii) Following the amalgamation, Erie Thames filed and was approved for rates on a cost of service basis for the amalgamated utility ("**EB-2012-0121**"). The Settlement Agreement that was approved by the Board expressly acknowledged that the identified savings had been incorporated into the Operations and Maintenance costs. Further, the manner of calculating the approved O&M costs for Erie Thames was based upon rates that existed prior to WPPI and CPC rebasing as standalone utilities in 2011. As such, the 2011 rate increases for WPPI and CPC were not directly factored into the Erie Thames 2012 cost of service numbers.
 - iv) The savings \$91,700 represent more than 1% of the distribution revenue requirement of three former utilities which is almost double the 0.6% stretch factor. As such the imposition of the highest stretch factor in addition to the

other efficiencies recognized from the amalgamations is effectively imposing the stretch factor three times.

In EB-2007-0028, the Board had indicated that distributors could defer rebasing for up to 5 years immediately following a merger. Erie Thames did not seek such deferral to retain the benefits of the amalgamation but applied for a cost of service rebasing less than 1 year later.

As previously noted the Report does not consider the circumstances and specific onetime events – such as a prolonged strike, a repatriation of employees, the amalgamation – which may have an impact on specific costs of a utility. Erie Thames is of the view that the amalgamation, reorganization and cost of service proceeding are intervening events that are so significant to render adherence to the Report improper in this particular circumstance.

Support for the notion that Erie Thames Report ranking may not be indicative of efficiency or overall ratepayer impact can be found by considering the cost to the ratepayer. The rankings provided by the analysis in Table 1 below indicate that the cohort ranking in the Report, which portrays Erie Thames as a relatively inefficient utility as compared to other similar utilities, is not necessarily reflective of the total cost of delivering power where Erie Thames ranks considerably more favourably.

Erie Thames' overall rates for delivered electricity compare favourably against the rates of similar utilities in Cohort 1 and Cohort 2. A table showing the average customer's bill for each rate class for each of the similar utilities is shown below:

| | Overall Avg Rate Rank | _ | sidential 00 kWh | % of Avg | GS<50 2000 kWh | % of Avg | GS>50 250 kW | % of Avg | Overall Average | Cohort Results |
|----|--------------------------|----|---------------------|----------|----------------------|----------|-----------------|----------|--------------------|-------------------|
| 1 | ELK | \$ | 210.24 | 70% | \$173.52 | 31% | \$13,736.28 | 124% | 75% | 2 |
| 2 | Collus | \$ | 271.35 | 90% | \$486.96 | 86% | \$ 9,288.24 | 84% | 87% | 3 |
| 3 | Westario | \$ | 272.40 | 91% | \$470.04 | 83% | \$ 9,593.70 | 87% | 87% | 2 |
| 4 | Welland | \$ | 310.87 | 103% | \$506.40 | 89% | \$ 8,346.48 | 76% | 89% | 2 |

| | Average | \$ | 300.42 | | \$568.46 | | \$11,043.08 | | | |

 Table 1 – Summary of Rates for Average Customers

Erie Thames understands the stretch factor is intended to encourage less efficient utilities to improve performance by limiting the increase in rates. Erie Thames, through the amalgamation, has become more efficient as more than 1% savings in total costs were incorporated into its current rates and has effectively provided more than 2 years of efficiency in the amalgamation savings. The stretch factor is incorporated into rates for the applicable rate year and every subsequent rate year until the next cost of service proceeding. As such, the impacts of a stretch factor are long lasting, compound each year and grow in significance.

Deferral and Variance Account Rate Riders

Deferral and Variance account data has been provided as per the Board's process for disposition of Deferral and Variance Accounts that exceed a threshold of +/-\$0.001/kWh. The 2013 IRM Rate Generator Model calculated that the disposition threshold was not met or exceeded. Furthermore, given the extreme complexity of Erie Thames Powerlines current Tariff Sheet (Effective January 1st, 2013)with respect to DVAD's the applicant proposes that no disposition of any DVAD amounts be approved at this time.

The Applicant would note that the 2012 COS proceeding established rate riders for smart meter disposition which became effective January 1, 2013. The recovery of these amounts extends beyond April 30, 2014 and the Applicant is proposing no change to the amounts.

Tax Change Rate Rider

The Applicant seeks new rate riders as calculated in the 2013 IRM Tax Sharing Model. These rate riders result in credits to ratepayers. The overall corporate tax rate is expected to increase by 0.25% from 26.25% to 26.50% and the reduction for the first \$500,000 of revenue as a CCPC. The tax changes create a savings of \$23,364 with 50% or \$11,682 being retained by Erie Thames. The resulting volumetric rates generated by the model are immaterial in all rate classes with the exception of the Street and Sentinel Lighting classes.

PILs Disposition

As part of EB-2012-0121, the Board directed Erie Thames to file the PILs disposition with either the 2013 IRM application or in a standalone application prior to June 1, 2013. Erie Thames intends to file for PILs disposition in a stand-alone application.

Retail Transmission Service Rates

The Applicant presently does not seek any changes to its Retail Transmission Service Rates. The applicant's current rates have only been in place since January 1st, 2013 and as such there is little history with respect to these rates and their accuracy in recovering the applicant's costs for RTSR at this time. Accordingly the applicant has not

filed a RTSR model at this time and requests a continuation of the rates approved in EB-2012-0121 on December 21st, 2012 through the applicable RTSR model filed at that time.

Other Rates and Charges

The Applicant seeks continuation of all of its specific rate riders as approved in EB-2012-0121, which are to be effective until various points in the future as detailed in Appendix A. The Applicant also seeks continuation of the other rates and charges approved in EB-2112-0121, especially the Allowances, Specific Service Charges, Retail Service Charges, and Loss Factors.

2013 Tariff Sheet

The Applicant has set out at Appendix D a copy of the 2013 Tariff Sheet from the 2013 IRM Rate Generator Model. It is important to note that in respect of the USL, Sentinel Lighting and Street Lighting classes, the 2013 IRM Rate Generator Model's Tariff Sheet there are "per connection" rates and charges for certain line items. Rates for these classes have been calculated on a per connection basis, as set out in the 2013 IRM Rate Generator Model, for:

- Service Charge, and
- Tax Change Rate Rider.

The Applicant seeks a Board Order for those rates and charges set out on the 2013 Tariff Sheet.

2013 Bill Impacts

The Applicant has set out at Appendix E a copy of the 2013 Bill Impacts from the 2013 IRM Rate Generator Model. Based on the current data, the rate changes calculated include the following increases.

| Rate Class | kWh | Distribut | tion Line | Total Bill | | |
|-------------|-------|-----------|-----------|------------|----------|--|
| | KVVII | \$ Impact | % Impact | \$ Impact | % Impact | |
| Residential | 800 | \$0.32 | 1.32% | \$0.33 | 0.29% | |
| Residential | 1,000 | \$0.36 | 1.38% | \$0.37 | 0.27% | |
| GS<50 kW | 2,000 | \$0.43 | 1.29% | \$0.44 | 0.17% | |

Erie Thames Powerlines Corporation Tariff of Rates and Charges Effective January 1st, 2013 Implementation January 1st 2013

This schedule superseds and replaces all previously approved schedules of Rates, Charges and Loss Factors

| Residential | UOM | Rate |

Unmetered Scattered Load

This classification refers to an account taking electricity at 750 volts or less whose average monthly maximum demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The level of the consumption will be agreed to by the distributor and the customer, based on detailed manufacturer information/documentation with regard to electrical consumption of the unmetered load or periodic monitoring of actual consumption.

Erle Thames Powerlines Corp.

Select the appropriate rate classes as they appear on your most recent Board-Approved Tariff of Rates and Charges, including the MicroFit Class.

How many classes are listed on your most recent Board-Approved Tariff of Rates and Charges?

9

Select Your Rate Classes from the Blue Cells below. Please ensure that a rate class is assigned to each shaded cell.

Rate Class Classification

| 1 | Residential |
|---|-----------------------------------|
| 2 | General Service Less Than 50 kW |
| 3 | General Service 50 to 999 kW |
| 4 | General Service 1,000 to 4,999 kW |
| 5 | Large Use |
| 6 | Street Lighting |
| 7 | Sentinel Lighting |
| 8 | Unmetered Scattered Load |
| 9 | Embedded Distributor |

Erie Thames Powerlines Corp.

For each class, Applicants are required to copy and paste the class descriptions (located directly under the class name) and the description of the applicability of those rates (description is found under the class name and directly under the word "APPLICATION"). By using the drop-down lists located under the column labeled "Rate Description", please select the descriptions of the rates and charges that **BEST MATCHES** the descriptions on your most recent Board-Approved Tariff of Rates and Charges. If the description is not found in the drop-down list, please enter the description in the green cells under the correct class exactly as it appears on the tariff. Please do not enter more than one "Service Charge" for each class for which a base monthly fixed charge applies. **Note: If the current RRRP consists of only one line on the current tariff schedule, enter the same rate for "Rural Rate Protection Charge - effective until April 30, 2012" and "Rural Rate Protection Charge - effective on and after May 1, 2012".

Erie Thames Powerlines Corp. TARIFF OF RATES AND CHARGES

Residential Service Classification

This classification refers to the supply of electrical energy to customers residing in residential dwelling units.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

General Service Less Than 50 kW Service Classification

This classification refers to the supply of electrical energy to General Service buildings requiring a connection with a connected load less than 50 kW, and, Town Houses and Condominiums described in section 3.1.9 of the Distributor's Conditions of Service that require centralized bulk metering. General Service buildings are defined as buildins that are used for purposes other than single family dwellings.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan a contract with a retailer or the wholesale market price as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Street Lighting Service Classification

This Classification refers to an account for roadway lighting with a Municipality, Regional Municipality, Minsitry of Transportation and private roadway lighting, controlled by photo cells. The consumption for these customers will be based on the calculated connection load times the required lighting times established in the approved OEB street lighting load shape template. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the

Sentinel Lighting Service Classification

This classification refers to accounts that are an unmetered lighting load supplied to a sentinel light.

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

an 17 of 51

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Unmetered Scattered Load Service Classification

This classification refers to an account taking electricity at 750 volts or less whose average monthly peak demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The level of consumption will be agreed to by the distributor and the customer, based on detailed manufacturer information/documentation with regard to electrical consumption of unmetered load or periodic monitoring of actual consumption. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Embedded Distributor Service Classification

This classification refers to an electricity distributor licensed by the Ontario Energy Board that is provided electricity by means of this distributors's facilities. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Erie Thames Powerlines Corr

Please complete the following continuity schedule for the following Deferral / Variance Accounts. Enter information into green cells only.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or IRM) you received approval for the December 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. This will allow for the correct starting point for the 2011 opening balance columns (for both principal and interest) whour equiring entries dating back to the beginning of the continuity schedule is: Jan 1, 2005.

Please refer to the footnotes for further instructions.

For all Board-Approved dispositions, please ensure that the disposition amount has the same sign (e.g. debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related Board decision.

¹ Please provide explanations for the nature of the adjustments. If the adjustment relates to previously Board Approved disposed balances, please provide amounts for adjustments and include supporting documentations.

² For RSVA accounts only, report the net variance to the account during the year. For all other accounts, record the transactions during the year.

1 the LDC 2013 rate year begins January 1, 2013, the projected interest is recorded from January 1, 2012 to December 31, 2012 on the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision. If the LDCs 2013 rate year begins May 1, 2013 the projected interest is recorded from January 1, 2012 April 30, 2013 on the December 31, 2011 balance adjusted for the disposed balances adjus

Applicants that did not have the balance in Account 1521 cleared by the Board in the 2012 rate proceedings are expected to file to dispose of Account 1521 in the 2013 rate proceedings. No Account 1521 balance is to be filed for clearance in the 2013 rate proceedings for those distributors that had account 1521 cleared by the Board in the 2012 rate proceedings.

In accordance with section 8 of the Special Purpose Charge (SPC) Regulation, Ontario Regulation 66/10, distributors were required to apply to the Board no tells than April 15, 2012 for an order authorizing the distributor to clear the balance in Account 1521. As per the Board's April 23, 2010 letter, the Board stated that it expected that requests for disposition of the balance in Account 1521 were to be adversed as part of the proceedings to set rates for the 2012 rate year, except in cases where this approach would result in noncompliance with the timeline set on it is section 3 of the SPC Regulation.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or IRM) you received approval for the Dozember 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. This will allow for the correct starting point for the 2011 opening balance columns (for both principal and interest) without requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

Please refer to the footnotes for further instructions.

For all Board-Approved dispositions, please ensure that the disposition amount has the same sign (e.g. debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related Board decision.

Please provide explanations for the nature of the adjustments. If the adjustment relates to previously Board Approved disposed balances, please provide amounts for adjustments and include supporting documentations.

For RSVA accounts only, report the net variance to the account during the year. For all other accounts, record the transactions during the year.

The Cu Ci and Massecular Joining the Search 1, 2013, the projected interest is recorded from January 1, 2012 to December 31, 2012 on the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision. If the LDCS 2013 rate year begins May 1, 2013 the projected interest is recorded from January 1, 2012 to April 30, 2013 on the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision.

Applicants that did not have the balance in Account 1521 cleared by the Board in the 2012 rate proceedings are expected to file to dispose of Account 1521 in the 2013 rate proceedings. No Account 1521 balance is to be filed for clearance in the 2013 rate proceedings for those distributors that had account 1521 cleared by the Board in the 2012 rate proceedings.

In accordance with section 8 of the Special Purpose Charge (SPCT) Regulation, Ontain Regulation 66/10, distributors were required to apply to the Board no table than April 15, 2012 for an order authorizing the distributor to clear the balance in Account 1521. As per the Board's April 23, 2010 letter, the Board stated that it expected that requests for disposition of the balance in Account 1521 were to be adversed as part of the proceedings to set rates for the 2012 rate year, except in cases where this approach would result in noncompliance with the timeline set on it is section 8 of the SPC Regulation.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or IRM) you received approval for the Dozember 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. This will allow for the correct starting point for the 2011 opening balance columns (for both principal and interest) without requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

Please refer to the footnotes for further instructions.

For all Board-Approved dispositions, please ensure that the disposition amount has the same sign (e.g. debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related Board decision.

Please provide explanations for the nature of the adjustments. If the adjustment relates to previously Board Approved disposed balances, please provide amounts for adjustments and include supporting documentations.

For RSVA accounts only, report the net variance to the account during the year. For all other accounts, record the transactions during the year.

The DC is a distance of the given beings and the projected interest is recorded from January 1, 2012 to December 31, 2012 and beings January 1, 2013, the projected interest is recorded from January 1, 2012 to DC and the Board in the 2012 rate decision. If the LDC's 2013 rate year beings hwy 1, 2013 the projected interest is recorded from January 1, 2012 to April 30, 2013 on the December 31, 2011 balance adjusted for the disposed balances approved by the Board in the 2012 rate decision.

Applicants that did not have the balance in Account 1521 cleared by the Board in the 2012 rate proceedings are expected to file to dispose of Account 1521 in the 2013 rate proceedings. No Account 1521 balance is to be filed for clearance in the 2013 rate proceedings for those distributors that had account 1521 cleared by the Board in the 2012 rate proceedings.

In accordance with section 8 of the Special Purpose Charge (SPCT) Regulation, Ontain Regulation 66/10, distributors were required to apply to the Board no table than April 15, 2012 for an order authorizing the distributor to clear the balance in Account 1521. As per the Board's April 23, 2010 letter, the Board stated that it expected that requests for disposition of the balance in Account 1521 were to be adversed as part of the proceedings to set rates for the 2012 rate year, except in cases where this approach would result in noncompliance with the timeline set on it is section 8 of the SPC Regulation.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2013 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2012 EDR process (CoS or IRM) you received approval for the Dozember 31, 2010 balances, the starting point for your entries below should be the adjustment column BF for principal and column BK for interest. This will allow for the correct starting point for the 2011 opening balance columns (for both principal and interest) without requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

Please refer to the footnotes for further instructions.

Threshold Test

Total Claim (including Account 1521, 1562 and 1568) Total Claim for Threshold Test (All Group 1 Accounts) Threshold Test (Total claim per kWh)³

(\$185,018) (\$185,018)

(0.0004) Claim does not meet the threshold test. If data has been entered on Sheet 5 for Accounts 1521 and 1562, the model will only dispose of Accounts 1521 and 1562.

¹ For Account 1562, the allocation to customer classes should be performed on the basis of the test year distribution revenue allocation to customer classes found in the Applicant's Cost of Service application that was most recently approved at the time of disposition of the 1562 account balances

² Residual Account balance to be allocated to rate classes in proportion to the recovery share as established when rate riders were implemented.

³ The Threshold Test does not include the amount in 1521, 1562 nor 1568.

No input required. This workshaet allocates the deferral/variance account balances (Group 1, 1521, 1588 GA, 1562 and 1568) to the appropriate classes as per the EDDVAR Report dated July 31, 2009

LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

| Total Loss Factor – Secondary Metered Customer < 5,000 kW |
|---|
| Total Loss Factor – Secondary Metered Customer > 5,000 kW |
| Total Loss Factor – Primary Metered Customer < 5,000 kW |
| Total Loss Factor – Primary Metered Customer > 5,000 kW |
| |

3RD Generation Incentive Regulation Model for 2013 Filers

Erle Thames Powerlines Corp.

Below is a listing of the proposed Monthly Fixed Charges, proposed Distribution Volumetric Rates, proposed Deferral and Variance account Rate Riders and all unexpired volumetric rates that were entered on Sheet 4. In the green cells (column A) below, please enter any additional rates being proposed (eg: LRAM/SSM, Tax Adjustments, etc). Please ensure that the word "Rider" or "Adder" is included in the description (as applicable). Note: All rates with expired effective dates have been removed. As well, the Current RTSR-Network and RTSR-Connection rate descriptions entered on Sheet 4 can be found below. The associated rates have been removed from this sheet, giving the applicant the opportunity to enter updated rates (from Sheet 13 in the Board-Approved RTSR model into the cells in column I.

Erie Thames Powerlines Corp. TARIFF OF RATES AND CHARGES Effective and Implementation Date May 01, 2013

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2013-0018

RESIDENTIAL SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to customers residing in residential dwelling units.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

MONTHLY RATES AND CHARGES - Delivery Component

GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to General Service buildings requiring a connection with a connected load less than 50 kW, and, Town Houses and Condominiums described in section 3.1.9 of the Distributor's Conditions of Service that require centralized bulk metering. General Service buildings are defined as buildins that are used for purposes other than single family dwellings.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

GENERAL SERVICE 50 TO 999 KW SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to General Service customers requiring a connection with a connected load, or whose average monthly maximum demand used for biling purposes, is equal to or greater than 50 kW but less than 1000 kW.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

The following is a complete Tariff Schedule based on the information entered in this model. Please review. Note: This worksheet is **unlocked** and the print margins, row heights, number formats, etc. can be adjusted.

Erie Thames Powerlines Corp. TARIFF OF RATES AND CHARGES

Effective and Implementation Date May 01, 2013

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2013-0018

RESIDENTIAL SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to customers residing in residential dwelling units.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

MONTHLY RATES AND CHARGES - Delivery Component

| Service Charge (per customer) | \$ | 15.37 |
|---|--------|----------|
| Rate Rider for Disposition of Residual Historical Smart Meter Costs - effective until December 31, 2014 | \$ | 0.23 |
| Rate Rider for Recovery of Stranded Meter Assets – effective until December 31, 2014 | \$ | 1.36 |

GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to General Service buildings requiring a connection with a connected load less than 50 kW, and, Town Houses and Condominiums described in section 3.1.9 of the Distributor's Conditions of Service that require centralized bulk metering. General Service buildings are defined as buildins that are used for purposes other than single family dwellings.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

MONTHLY RATES AND CHARGES - Delivery Component

| Service Charge (per customer) | \$ | 21.18 |
|---|--------|----------|

GENERAL SERVICE 50 TO 999 KW SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to General Service customers requiring a connection with a connected load, or whose average monthly maximum demand used for biling purposes, is equal to or greater than 50 kW but less than 1000 kW.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

LARGE USE SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to General Service Customers requiring a connection with a connected load or whose average monthly maximum demand used for billing purposes is equal to or greather than, or is forecast to be equal to or great than, 5000 kW.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributors's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES -- Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

MONTHLY RATES AND CHARGES - Delivery Component

| Service Charge (per customer) | \$ | 9,846.36 |
