Dear Ms. Walli:

IN THE MATTER OF the Electricity Act, 1998, S.O. 1998, c. 15, Schedule A;

AND IN THE MATTER OF an Application made collectively by entities that have renewable energy supply procurement contracts with the Ontario Power Authority in respect of wind generation facilities for an Order revoking certain amendments to the market rules and referring the amendments back to the Independent Electricity System Operator for further consideration.

Board File Nos.: EB-2013-0029 and EB-2013-0010

We write further to the Board's Procedural Order No. 2 issued on February 4, 2013 in EB-2013-0010 and EB-2013-0029 ("PO2") respecting the Independent Electricity System Operator's ("IESO") January 29, 2013 document production, as amended on January 31, 2013 (the "IESO Production") and our letter of February 5, 2013.

As indicated in our February 5, 2013 letter, it came to our attention that a document, bates nos. IESO0003476 to IESO0003496, over which the Ontario Power Authority ("OPA") has advised that it intends to assert confidential treatment, was inadvertently produced. Since discovering this error and after submitting our letter of February 5, 2013 to the Board, we have learned that the problem arose as a result of the improper loading of image and data files, resulting in certain images being associated with the wrong data (title, date, etc.) in the database. As a result of this error, the IESO has prepared a revised production set, correcting the problem and redacting bates nos. IESO0003476 to IESO0003496, as indicated by the OPA.

In addition, the documents listed in Schedule A to our February 1, 2013 letter have been unredacted, as per PO2, save for two (2) documents over which the OPA has advised that it intends to assert confidential treatment (see the attached Appendix 1). As the IESO had previously redacted these documents for unresponsiveness, the OPA had not previously advised whether it intended to assert confidential treatment over these documents. As the OPA has now so advised, the IESO does not want to prejudice the OPA's ability to seek confidential treatment over these documents by producing unredacted versions of these documents. As this is an issue to be determined by the Applicants, the OPA and the Board, the IESO takes no position in the matter.
