BY COURIER

Ms. Kirsten Walli
Secretary
Ontario Energy Board
2300 Yonge Street
Suite 2700,
Toronto, ON.
M4P 1E4

Dear Ms. Walli:

EB-2013-0004 – OEB Development of a Standby Rates Policy for Load Displacement Generation – Hydro One Networks' Notice of Intention to Participate and Nomination.

In response to the Ontario Energy Board's January 24, 2013 letter to licensed electricity distributors, and other interested parties, I am writing to indicate Hydro One Networks ("Hydro One") would be interested in participating in the Ontario Energy Board's Development of a Standby Rates Policy for Load Displacement Generation.

Hydro One nominates Mr. Henry Andre, Manager of Transmission and Distribution Pricing, as its representative on the Load Displacement Generation Working Group the Board intends to establish. Mr. Andre has technical expertise related to the methodologies and principles for cost allocation and rate design, and is familiar with the Board's Cost Allocation Model for electricity distributors; having participated on a number of the Board's working groups on these issues. He is also familiar with role of Load Displacement Generation (LDG) in meeting customers' electricity demand, and will have the support of resources within Hydro One that are familiar with the operational characteristics of LDG and its potential impacts on the distribution system.

Hydro One notes that it is not eligible for costs under the Board's Cost Award Guidelines.

Hydro One requests that documents filed with the Board in this proceeding be served on Hydro One Networks as follows –

Mr. Jamie Waller
Sr. Regulatory Coordinator
