Dear Ms. Walli:

**Re: Application to Review Market Rule Amendments Renewable Energy Supply  
Generators  
Board File No: EB-2013-0029**

---

We are counsel for the Applicants, the Renewable Energy Supply Generators, in the above noted matter.

We are re-filing our Submissions on the Production of Materials to replace Schedule F to these submissions. We initially filed these submissions on February 5, 2013. Subsequent to filing, the IESO indicated that it had inadvertently produced the unredacted version of the document included at Schedule F of our submissions (IESO/OPA, "Renewable Dispatch, Ministry of Energy, October 11, 2011"), a document over which the Ontario Power Authority intended to make a claim for confidentiality. In order to have our submissions on the record in this proceeding without further delay, we have replaced the document initially included at Schedule F with the redacted version of this document. This is without prejudice to our position that the document should be disclosed on a non-confidential, unredacted basis.

We trust the above is satisfactory.

Sincerely,

George Vegh
