**Subject:** request for intervenor status

Kirsten Walli, Board Secretary  
Ontario Energy Board  
2300 Yonge Street, Suite 2701

February 20, 2013

Dear Ms. Walli:

Re: **EB-2013-0040** Bornish Wind, and **EB-2013-0041** Kerwood Adelaide Wind

I am interested in the proceeding of the applications of **EB-2013-0040** Bornish Wind, and **EB-2013-0041** Kerwood Adelaide Wind.

I am requesting intervenor status for Middlesex/Lambton Wind action Group, Inc. (MLWAG) for both projects as detailed below. MLWAG, Inc. is a corporation in Ontario with 3 officers. There is no membership.

These 2 proposed transmission projects will connect the Kerwood (Adelaide) and Bornish wind projects to the HON1 grid. Wind projects impact local residents in many ways and we would like to submit evidence on impacts and conduct cross-examination of witnesses. Specifically we would like a full discussion of certain clauses in the easement option/agreements that are used for these projects and which we believe are grossly unfair to adjoining landowners. There are other material issues not addressed in the easements; neither have they been addressed in the project documents, nor in the open house meetings.

Thank you for your assistance,

Sincerely,

Harvey Wrightman
