Re: Case EB - 2012 - 0458  
K-2 Wind Power project  
Ashfield - Colborne - Wawanosh  
Huron County -

Reasons I am against above project

1. noise
2. low frequency vibration from turbines
3. transmission and sub stations -  
dirty electricity travelling into homes
4. health issues
5. don't need expensive power
6. land owners profit - other residents  
suffer.
7. Lack of responsibility and caring  
of large companies to local citizens
8. Property values down - or unable

to sell property because of turbines
