

**EB-2012-0433**

## **NOTICE OF APPLICATION**

**Union Gas Limited has applied for approval to build a natural gas pipeline and supporting infrastructure in the Town of Milton, and for approval to recover those costs through its natural gas rates**

### **What?**

Union Gas Limited (Union) has applied to the Ontario Energy Board (OEB) for approval to construct 750 meters of natural gas pipeline and associated facilities including a standby compressor in the Town of Milton. The approximate total cost of the project is \$200 million. Please see attached map for details of the proposed route. Construction of the proposed pipeline is scheduled to commence in 2013. Union has also applied to recover the costs of the project from ratepayers once the project is completed in January 2016.

### **Why?**

Union Gas says that the proposed project will provide greater reliability of supply and allow for more gas to flow through the Parkway Compressor Station.

### **The Ontario Energy Board's Role**

The OEB will hold a hearing to consider whether Union's request for approval to construct the natural gas pipeline (and associated facilities) should be approved. The Board will also determine if Union will be permitted to recover the costs of the project through the rates it charges to consumers.
