PROJECT # EB-2013-0015

To: Ontario Engery Board

I wish to oppose all industrial wind turbine development on or near Aundeck Omni Kaning First Nation. I am a Treaty First Nations member here at Aundeck Omni Kaning First Nation since 1971. There are two (2) Band Council Resolutions (BCR) opposing industrial wind turbine development from the Aundeck Omni Kaning First Nation. BCR's that are filed with the Department of Indiand Affairs and Northern Development. .

Former Aundeck Omni Kaning First Nation Chief Craig Abottosaway made a unilateral decision to include the Aundeck Omni kaning First Nation to partner with Northland Power to form the Mnidoo Mnising Power Board. This is illegal to which all parties were aware of. Again, as a community member I was not properly consulted.

You have further violated the health effects of myself and my husband. Manitoulin Island will become a wasteland The industrial wind turbines will not force me to leave my homeland, a place where I was born and raised. This I cannot allow.

You have all violated your "Duty to Consult with me." You have violated the Corbiere Case guidelines that 'all off-reserve Aundeck Omni Kaning First members be notified and appropriately be consulted.

I look forward to hearing from you.

Sincerely,

Mrs. Anna Marie General
