27th Floor 2300 Yonge Street
Toronto, Ontario
M4P 1E4

Dear Ms. Walli:

Re: **Board File No. EB-2012-0460 - Application for an Electricity Generation Licence**

On December 5, 2012, 2252112 Ontario Inc. ("2252112") filed an *Application for an Electricity Generation Licence* ("Application") with the Ontario Energy Board (the "Board"). The Board assigned file number EB-2012-0373 to this matter.

Pursuant to filing the Application, 2252112 was made aware that the *Generation Licence* may not be granted due to the total name plate capacity of the generation facilities is less than 500 kilowatts.

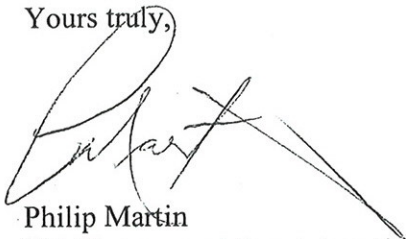

On January 23, 2013, 2252112 filed an *Amendment Application for an Electricity Generation Licence* ("Amendment") to which the Board responded with its **Letter of Direction** on February 21, 2013. Included in the **Letter of Direction** were instructions from the Board which were to be met by February 28, 2013.

The requirements were not met in time by 2252112 and we are requesting that the Board allow us additional time to properly comply with the Board's **Letter of Direction**.

Please accept our apology for any inconvenience this request may cause the Board.

A copy of this request will be emailed and two (2) copies will be sent by courier. Please direct any questions regarding this submission to the undersigned.

Yours truly,

Philip Martin
VP, Finance and Regulatory Compliance
