ONTARIO ENERGY BOARD

IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S. 36 thereof;

AND IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S.90.(1) thereof;

AND IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S.91 thereof

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders for pre-approval of recovery of the cost consequences of all facilities associated with the development of the proposed Parkway West site;

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders granting leave to construct natural gas pipelines and ancillary facilities in the Town of Milton.

AFFIDAVIT OF SERVICE

I, **MARY JANE PATRICK**, of Municipality of Chatham-Kent, in the Province of Ontario,

MAKE OATH AND SAY:

1. That I am an employee in the Registered Office of Union Gas Limited and, as such, have knowledge of the matters herein deposed to.
2. On Wednesday, March 13 2013 and Friday, March 15 2013, I did cause to be sent by courier and registered mail, a true copy of the Notice of Application for EB-2012-0433 issued by the Ontario Energy Board on March 5th, 2013 together with a copy of the relevant Application, marked as Exhibit "A" to this my Affidavit upon the following:
 - a) Upon the clerks of all affected municipalities, upon all affected First Nations and reserves or other directly affected Aboriginal groups, upon all affected utilities and railway companies and upon all property owners and encumbrancers with lands or interest in lands directly affected by the proposed pipeline.
3. Confirmation of courier and registered mail delivery receipts are attached hereto as Exhibit "B".
4. I make this Affidavit in good faith and for no improper purpose.

SWORN BEFORE ME in the
Municipality of Chatham-Kent
Province of Ontario,
this 23rd day of January, 2013.

A Commissioner, etc.

THIS IS EXHIBIT A TO THE AFFIDAVIT
OF MARY JANE PATRICK
SWORN BEFORE ME THIS 19 DAY OF
MARCH 20 13

A COMMISSIONER, ETC.

EB-2012-0433

NOTICE OF APPLICATION

Union Gas Limited has applied for approval to build a natural gas pipeline and supporting infrastructure in the Town of Milton, and for approval to recover those costs through its natural gas rates

What?

Union Gas Limited (Union) has applied to the Ontario Energy Board (OEB) for approval to construct 750 meters of natural gas pipeline and associated facilities including a standby compressor in the Town of Milton. The approximate total cost of the project is \$200 million. Please see attached map for details of the proposed route. Construction of the proposed pipeline is scheduled to commence in 2013. Union has also applied to recover the costs of the project from ratepayers once the project is completed in January 2016.

Why?

Union Gas says that the proposed project will provide greater reliability of supply and allow for more gas to flow through the Parkway Compressor Station.

The Ontario Energy Board's Role

The OEB will hold a hearing to consider whether Union's request for approval to construct the natural gas pipeline (and associated facilities) should be approved. The Board will also determine if Union will be permitted to recover the costs of the project through the rates it charges to consumers.

Have Your Say

There are several ways you can get involved in the process:

- You can apply for intervenor status, which will allow you to participate more actively.
- You can file a Letter of Comment with the OEB.
- You can become an observer which allows you to receive OEB documents and monitor the proceeding but not take an active role.

To learn more about how to participate, please visit
www.ontarioenergyboard.ca/participate

Deadlines

To become an intervenor or an observer, your deadline to file documents with the OEB is 10 days from the publication or service date of this notice. If you miss this deadline, the hearing will proceed without you. You will not receive any further notice of the proceeding.

If you choose to file a letter of comment, you must file it no later than 30 days from the publication or service date of this notice.

Personal Information

Your personal information is treated differently depending on how you choose to participate.

If you file a letter of comment or request to become an observer, your name and the content of your letter to the OEB will be put on the public record and on the OEB's website, but your personal telephone number, address, fax number or e-mail address will be removed from the letter. Any business information will be public.

If you choose to become an intervenor anything you file with the OEB including your name and personal contact information will be placed on the OEB website and will be available for the public to view.

Written vs. Oral Hearings

The OEB has not determined whether it will hold a written or oral hearing in this case. That decision will be made later in this process.

Learn More

To learn more about this hearing and your options to get involved, please visit our website www.ontarioenergyboard.ca/participate or phone our Consumer Relations Centre at 1-877-632-2727. You can access all documents related to this case by searching the file number EB-2012-0433 on the OEB website.

This hearing will be held under sections 19, 36 and 90(1) of the *Ontario Energy Board Act, 1998*, S.O. 1998 c.15 (Schedule B).

APPENDIX "A"
TO
NOTICE OF APPLICATION AND HEARING
EB-2012-0433

MAP OF THE PROPOSED ROUTE

ONTARIO ENERGY BOARD

IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S. 36 thereof;

AND IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S.90.(1) thereof;

AND IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S.91 thereof

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders for pre-approval of recovery of the cost consequences of all facilities associated with the development of the proposed Parkway West site;

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders granting leave to construct natural gas pipelines and ancillary facilities in the Town of Milton.

UNION GAS LIMITED

1. Union Gas Limited (the "Applicant") hereby applies to the Ontario Energy Board (the "Board"), pursuant to Section 36 of the Ontario Energy Board Act (the "Act") for an Order or Orders granting:
 - (i) pre-approval of recovery of the cost consequences of all facilities associated with the development of the proposed Parkway West project from ratepayers;
 - (ii) approval of an accounting order to establish Parkway West Cost Deferral Account.
2. The Applicant also hereby applies to the Board, pursuant to Section 90.(1) of the Act, for an Order or Orders granting leave to construct 750 meters of NPS42 pipeline from the existing Parkway Compressor Site to a valve nest at the proposed Parkway West Compressor Site located in "Part Lots 9 & 10, Concession 9, Trafalgar New Survey, Town of Milton.

3. The Applicant also hereby applies to the Board, pursuant to Section 91 of the Act, for an Order or Orders granting leave to construct the following:
 - (i) connections to Union's Dawn-Parkway system to flow gas to the proposed Parkway West site;
 - (ii) a measurement and control station which will connect to the Enbridge pipeline system;
 - (iii) a loss of critical unit compressor; and
 - (iv) general infrastructure and land necessary to construct and operate Parkway West site.
4. Attached hereto as Schedule 'A' is a map showing the general location of the proposed pipelines, and associated facilities and the municipalities, highways, railways and utility lines through, under, over, upon or across which the pipeline will pass.
5. Attached hereto as Schedule 'B' is an Executive Summary describing the proposed project.
6. The parties affected by this Application are the owners of lands over which the pipeline will be constructed and Union's transportation and wholesale customers with respect to quality of service and security of supply.
7. The Applicant now therefore applies to the Board for an Order or Orders for pre-approval of recovery of the cost consequences and granting leave to construct the proposed pipeline as described above, as well as the proposed Parkway-West facilities.

8. The address for service for Union is:

Executive Summary

1. Union Gas Limited's ("Union") application to the Ontario Energy Board ("OEB" or "Board") consists of three requests:
 - a. a section 36 application requesting approval for rate recovery of the full cost of the Parkway West investment effective January 1, 2016;
 - b. a section 90 application for leave-to-construct a NPS42 pipeline from the existing Parkway Compressor Station ("Parkway") to the proposed Parkway West Compressor Station ("Parkway West"); and,
 - c. a section 91 application for leave to construct a measurement and control station which will connect to the Enbridge pipeline system; for connections to Union's Dawn-Parkway system to flow gas to the proposed Parkway West site; a loss of critical unit compressor; and general infrastructure and land necessary to construct and operate Parkway West site.
2. The proposed Parkway West Project (the "Project") provides for the construction of new facilities on a new site immediately west of Highway 407, directly across from the existing Parkway Station. At this site, Union is proposing a loss of critical unit ("LCU") compressor for the discharge volumes that flow through Parkway, the provision of an additional pipeline connection to Enbridge, and the provision of upgrades to existing Union transmission pipelines and other required infrastructure.
3. The total estimated cost of the project is \$203 million, making it the single largest project in Union's history. The project has support of many of Union's major shippers, including Enbridge and Gaz Métro, who will bear most of the costs of the proposed facilities. Union proposes to start construction of these facilities in 2013 with the site development and the construction of the additional pipeline feed to Enbridge will follow in 2014. The loss of critical unit compressor will be constructed to be in service by 2015.
4. Union is seeking an order from the Board, pursuant to section 36 of the Act, for pre-approval of recovery of the cost consequences of all facilities associated with the development of the Project from ratepayers. Union is seeking pre-approval of the recovery of the costs

consequences of the Project because: i) it is the single largest project in the history of Union, requiring a significant capital outlay, without any new, incremental contractual commitments or revenues; ii) it would be more efficient for the Board to address all known impacts from the Project at once, and provide a predictable rate impact to Union's customers and other stakeholders; iii) the ex-franchise customers who will pay for the cost of the Project support the Project; and, iv) a finding on the rate impacts from the Project will help inform the parameters of Union's next regulatory framework. Given the magnitude of this project, Union is not able to proceed with the development of the Project without reasonable certainty of cost recovery.

5. The first full-year cost of service directly attributable to the Project (rate base, return, interest, tax, depreciation and O&M) to the Project is approximately \$15.3 million. Using the allocation of Dawn-Parkway costs per the 2013 Board approved cost allocation study results in: (i) a reduction of approximately \$2.1 million, allocated to in-franchise rate classes, and (ii) an increase of approximately \$17.4 million, allocated to ex-franchise rate classes.
6. Parkway was developed in 1989 to meet increased customer demand as well as deal with physical limitations at the then existing Trafalgar Compressor Station. Parkway currently provides a significant connection to the TCPL mainline system as well as a critical connection to the Enbridge distribution system.
7. North American natural gas markets are experiencing significant change. While production from traditional mature basins in Alberta has been in decline, there has been prolific growth in emerging gas supplies from shale gas formations onshore near the Gulf of Mexico, the mid-continent and Appalachia, and from coal bed methane and tight gas formations in the U.S. Rockies.
8. There are major implications specific to Ontario from the changing North American gas supply dynamics including:
 - Significant growth in the physical flow of natural gas through Parkway; and
 - Heightened security of supply concerns arising from that growth which are driven by increased flows at Parkway.

9. Parkway is essential to the movement of natural gas in Ontario. The Project will ensure the continued reliable movement of natural gas.
10. Parkway is the only site on the Dawn-Parkway System which does not have loss of critical unit coverage. The construction of a compressor to provide reserve horsepower will ensure that Union will be able to meet its contractual commitments and ensure that natural gas continues to be delivered to customers downstream of Parkway, including those customers which will be served by Enbridge's GTA Project application.
11. If there were a major failure at Parkway, Union would not be able to meet its contractual commitments. To address this significant operational risk, Union proposes to build a loss of critical unit compressor and an additional connection to Enbridge. Failure could result in nearly 70% of GTA customers losing gas service, including all gas-fired power generators.
12. Union reviewed a number of alternatives to determine the best option to meet the objectives of the Project. The alternatives included contracting for services on other pipeline systems. Union met and consulted with stakeholders to review the options. The Project best addresses the relevant decision criteria.
13. In summary, the Project addresses the increased demands at Parkway resulting from the changing dynamics in the flow of natural gas in North America. It allows for the continuation of reliable service to Union's customers. Parkway West has been planned and designed following appropriate, consistent engineering principles and will not create any long term significant environmental impacts. Union has the lands and resources in place to complete the Project.

EB-2012-0433

NOTICE OF APPLICATION

Union Gas Limited has applied for approval to build a natural gas pipeline and supporting infrastructure in the Town of Milton, and for approval to recover those costs through its natural gas rates

What?

Union Gas Limited (Union) has applied to the Ontario Energy Board (OEB) for approval to construct 750 meters of natural gas pipeline and associated facilities including a standby compressor in the Town of Milton. The approximate total cost of the project is \$200 million. Please see attached map for details of the proposed route. Construction of the proposed pipeline is scheduled to commence in 2013. Union has also applied to recover the costs of the project from ratepayers once the project is completed in January 2016.

Why?

Union Gas says that the proposed project will provide greater reliability of supply and allow for more gas to flow through the Parkway Compressor Station.

The Ontario Energy Board's Role

The OEB will hold a hearing to consider whether Union's request for approval to construct the natural gas pipeline (and associated facilities) should be approved. The Board will also determine if Union will be permitted to recover the costs of the project through the rates it charges to consumers.

Have Your Say

There are several ways you can get involved in the process:

- You can apply for intervenor status, which will allow you to participate more actively.
- You can file a Letter of Comment with the OEB.
- You can become an observer which allows you to receive OEB documents and monitor the proceeding but not take an active role.

To learn more about how to participate, please visit
www.ontarioenergyboard.ca/participate

Deadlines

To become an intervenor or an observer, your deadline to file documents with the OEB is 10 days from the publication or service date of this notice. If you miss this deadline, the hearing will proceed without you. You will not receive any further notice of the proceeding.

If you choose to file a letter of comment, you must file it no later than 30 days from the publication or service date of this notice.

Personal Information

Your personal information is treated differently depending on how you choose to participate.

If you file a letter of comment or request to become an observer, your name and the content of your letter to the OEB will be put on the public record and on the OEB's website, but your personal telephone number, address, fax number or e-mail address will be removed from the letter. Any business information will be public.

If you choose to become an intervenor anything you file with the OEB including your name and personal contact information will be placed on the OEB website and will be available for the public to view.

Written vs. Oral Hearings

The OEB has not determined whether it will hold a written or oral hearing in this case. That decision will be made later in this process.

Learn More

To learn more about this hearing and your options to get involved, please visit our website www.ontarioenergyboard.ca/participate or phone our Consumer Relations Centre at 1-877-632-2727. You can access all documents related to this case by searching the file number EB-2012-0433 on the OEB website.

This hearing will be held under sections 19, 36 and 90(1) of the *Ontario Energy Board Act, 1998*, S.O. 1998 c.15 (Schedule B).

AVIS DE REQUÊTE

Union Gas Limited a déposé une requête afin d'obtenir l'autorisation de construire un pipeline de gaz naturel et une infrastructure de soutien dans la Ville de Milton et afin d'obtenir l'autorisation de recouvrer ces coûts à l'aide de ses tarifs de gaz naturel.

Quoi?

Union Gas Limited (Union) a demandé à la Commission de l'énergie de l'Ontario (CEO) l'autorisation de construire un pipeline de gaz naturel mesurant 750 m et les installations connexes, y compris un compresseur de secours dans la Ville de Milton. Le coût total approximatif du projet est de 200 millions de dollars. Veuillez voir la carte ci-jointe pour des détails sur le tracé proposé. La construction du pipeline proposé devrait débuter en 2013. Union a également fait une demande pour recouvrer les coûts du projet auprès de ses utilisateurs lorsque le projet sera mené à bien en janvier 2016.

Pourquoi?

Union Gas affirme que le projet proposé fournira une meilleure fiabilité quant à l'approvisionnement et permettra à plus de gaz de circuler à travers la centrale de compression Parkway.

Le rôle de la Commission de l'énergie de l'Ontario

La CEO tiendra une audience afin d'étudier si la demande d'autorisation de construire le pipeline de gaz naturel (et les installations connexes) de Union Gas Limited devrait être approuvée. La Commission déterminera également si Union aura la permission de recouvrer les coûts du projet par l'entremise des tarifs facturés à ses consommateurs.

Faites valoir votre opinion

Vous pouvez participer au processus de plusieurs manières :

- Vous pouvez faire une demande de statut d'intervenant, ce qui vous permettra de participer au processus plus activement.
- Vous pouvez déposer une lettre de commentaires auprès de la CEO.
- Vous pouvez devenir un observateur, ce qui vous permet de recevoir les documents émis par la CEO et de suivre l'instance sans toutefois jouer un rôle actif.

Pour en savoir plus sur les façons de participer au processus, veuillez consulter la page Web suivante :

http://www.ontarioenergyboard.ca/OEB/Industry/Regulatory%20Proceedings/Hearings/Participating%20in%20a%20Hearing/Participating%20in%20a%20Hearing_fr.

Dates limites

Pour devenir un intervenant ou un observateur, la date limite pour déposer vos documents auprès de la Commission est 10 jours après la date de publication ou de signification de cet avis. Si vous ne respectez pas cette date limite, l'audience se poursuivra sans vous. Vous ne recevrez aucun autre avis concernant cette instance.

Si vous décidez de déposer une lettre de commentaires, vous devez la déposer au plus tard 30 jours après la date de publication ou de signification de cet avis.

Renseignements personnels

Vos renseignements personnels seront traités différemment selon la manière dont vous choisirez de participer.

Si vous déposez une lettre de commentaires ou une demande pour devenir un observateur, votre nom et le contenu de votre lettre à la CEO seront versés au dossier public et affichés sur le site Web de la CEO. Cependant, vos renseignements personnels comme votre numéro de téléphone, votre adresse, votre numéro de télécopieur et votre adresse électronique seront retirés de la lettre. Tout renseignement professionnel sera public.

Si vous choisissez de devenir un intervenant, tout ce que vous déposez auprès de la CEO, incluant votre nom et vos coordonnées, sera affiché sur le site Web de la CEO et pourra être consulté par le public.

Audiences écrites ou orales

La CEO n'a pas déterminé si elle tiendra une audience écrite ou orale pour ce dossier. Cette décision sera prise plus tard dans le processus.

En savoir plus

Pour en savoir plus sur cette audience et vos options pour y participer, veuillez consulter notre site Web à l'adresse

http://www.ontarioenergyboard.ca/OEB/Industry/Regulatory%20Proceedings/Hearings/Participating%20in%20a%20Hearing/Participating%20in%20a%20Hearing_fr ou

appelez notre Centre des relations avec les consommateurs au 1-877-632-2727. Vous pouvez accéder à tous les documents relatifs à ce dossier en recherchant le numéro de dossier EB-2012-0433 sur le site Web de la CEO.
