### **AMENDED RATE ORDER**

Newbury Power Inc. ("Newbury") is a licensed distributor of electricity providing service to consumers within its licensed service area. Newbury filed an application with the Ontario Energy Board (the "Board") for an order or orders approving or fixing just and reasonable rates for the distribution of electricity and other charges, to be effective May 1, 2008.

On March 25, 2008, the Board issued its Decision (the "Decision") regarding Newbury's application. On April 22, 2008, the Board issued the Rate Order arising from the Decision.

Subsequently, it was discovered that for the General Service Less Than 50 kW class, the levels of the Retail Transmission Rate – Network Service Rate and the Retail Transmission Rate – Line and Transformation Connection Service Rate had not been revised to reflect the Decision, which directed Newbury to reduce its Retail Transmission Service Rates ("RTS") – Network Service Rates by 18% and its RTS – Line and Transformation Connection Service Rates by 5% for all its rate classes. The amended values are \$0.0043/kWh for both rates.

The Revised Tariff of Rates and Charges set out in Appendix “A” of this Order reflects the revised amounts and supersedes all previously Board approved schedules for Rates, Charges and Loss Factors.
