Dear Ms. Walli:

Re: EB-2012-0433 – Union Gas Limited (“Union”) – Leave to Construct Natural Gas Pipeline and Associated Facilities in the Town of Milton – Parkway West Station Project (“Project”) – Request for Late Intervention by the City of Kitchener (“Kitchener”)

Pursuant to the Ontario Energy Board’s (“Board’s”) Notice of Application dated March 5, 2013 (“Notice”), Kitchener wishes to actively participate in this proceeding.

Kitchener is an embedded gas distributor in the Southern Area of the franchise territory of Union and receives storage and transportation services under Rates T3 and M12. Kitchener has recently intervened in the EB-2012-0430 facilities proceeding for Union’s Owen Sound Replacement Project and in the EB-2011-0210 proceeding for Union’s 2013 Rates. Due to its participation in the Parkway Obligation Working Group arising from the Settlement Agreement in the latter proceeding, Kitchener has just become aware of the specific rate impacts of the Project on its T3 and M12 services.

Although the Notice is silent on provision for costs, Kitchener does not expect to seek costs in this proceeding.

If there are any questions or concerns with this request for late intervention, please contact me at your earliest convenience.

Sincerely,

James A. Gruenbauer, CMA
Manager, Regulatory Affairs and Supply
