In response to the Board staff's request for clarification on Sheet 3 of the 2007 IRM Model submitted on January 26, 2007; Westario Power Inc. ("WPI") intended to include a Street Lighting classification with the following description:

This classification refers to an account for roadway lighting with a Municipality, Regional Municipality, Ministry of Transportation and private roadway lighting operation, controlled by photocells. The consumption for these customers will be based on the calculated connected load times the required lighting times established in the approved OEB street lighting load shape template.

Westario Power Inc. kindly requests that Sheet 3 be amended to include the above Street Lighting classification.

Yours truly
