RE: EB-2013-0074 UNION GAS - Brantford-Kirkwall/Parkway D

REQUEST & SUPPORT

I am writing on behalf of the Federation of Rental-housing Providers of Ontario (FRPO) in regard to the Notice of Application . The Application requests approval of the Leave to Construct for the pipeline and compressor project under Sections 36, 90 and 91 of the Ontario Energy Board Act, 1998. The project and associated rate impacts have effect on the members of the FRPO.

FRPO is Ontario's leading advocate for quality rental housing, representing over 800 private owners and managers who supply over 300,000 rental suites across the province. Our members strongly believe that the rental-housing sector is best served by a competitive marketplace that offers choice and affordability in the provision of energy services. As a not-for-profit organization, FRPO does not have other funding sources to ensure experienced representation to participate in and assist the Board in these regulatory proceedings. FRPO has previously assisted the Board in other matters and has been awarded costs by the Board. Therefore FRPO would respectfully request a determination of eligibility for cost award in this proceeding.

ISSUE

The growth of supply in north-east North America has created different flow dynamics in Ontario. This application represents the third of 3 applications that are inter-connected in terms of infrastructure in Southwestern and Central Ontario. Given the proceedings of 2012, the Board has communicated the need for the utilities to work with TransCanada pipelines (TCPL) in these matters. While there is some evidence of communication in the evidence, we would like to understand how the impacts of this project, Union's Parkway West project and Enbridge's GTA reinforcement project were evaluated in the public interest.

FRPO has participated in recent Union applications and desires to assist the Board in reviewing the application in light of the rate impacts that would be generated by the project . FRPO represents the direct interest of its members who are impacted by changes to the regulated rates of Union and, in this matter, Enbridge. Therefore, FRPO would respectfully reserve its right to be involved in all aspects of the review of the Leave to Construct Application.

REPRESENTATION

If the intervention requested is granted, then FRPO asks that further communications with respect to this matter be sent to the following:
