By Courier and RESS

Ms. Kirsten Walli, Board Secretary
Ontario Energy Board
2300 Yonge Street, Suite 2700
Toronto, Ontario
M4P 1E4

Dear Ms. Walli:

**Re: Union Gas Limited
EB-2013-0074
Brantford-Kirkwall/Parkway D Compressor Project**

As per the Board's Letter of Direction dated April 12, 2013, please find attached the Affidavit of Service and Affidavit of Publication of Mary Jane Patrick for the above referenced project.

Sincerely,

Mary Jane Patrick,
Administrative Analyst, Regulatory Projects
:mjp
Encl.

ONTARIO ENERGY BOARD

IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S. 36 thereof;

AND IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S.90.(1) thereof;

AND IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S.91 thereof

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders for pre-approval of recovery of the cost consequences of all facilities associated with the development of the proposed Brantford-Kirkwall/Parkway D Compressor Station project;

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders for pre-approval of the cost consequences of two long term short haul transportation contracts;

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders granting leave to construct natural gas pipelines and ancillary facilities in the City of Cambridge and City of Hamilton.

AFFIDAVIT OF SERVICE

I, **MARY JANE PATRICK**, of Municipality of Chatham-Kent, in the Province of Ontario,

MAKE OATH AND SAY:

1. That I am an employee in the Registered Office of Union Gas Limited and, as such, have knowledge of the matters herein deposed to.
2. On Thursday, April 18, 2013, I did cause to be sent by courier, registered mail and email, a true copy of the Notice of Application for EB-2013-0074 issued by the Ontario Energy Board on April 12th, 2013 together with a copy of the relevant Application, marked as Exhibit "A" to this my Affidavit upon the following:
 - a) Upon the clerks of all affected municipalities, upon the Aboriginal communities and Aboriginal Reservations that are all the communities and reservations affected, upon all affected utilities and railway companies whose lines would be crossed by the proposed pipeline and upon all property owners and encumbrancers with lands or interest in lands directly affected by the proposed pipeline.

3. Confirmation of courier, registered mail delivery receipts and email confirmation are attached hereto as Exhibit "B".
4. I make this Affidavit in good faith and for no improper purpose.

SWORN BEFORE ME in the
Municipality of Chatham-Kent
Province of Ontario,
this 25th day of April, 2013.

A Commissioner, etc.

THIS IS EXHIBIT A TO THE AFFIDAVIT
OF MARY-JANE PATRICK
SWORN BEFORE ME THIS 25 DAY OF
APRIL 20 13

A COMMISSIONER, ETC.

EB-2013-0074

NOTICE OF APPLICATION

Union Gas Limited has applied for approval to build a natural gas pipeline and supporting infrastructure in the City of Cambridge and City of Hamilton, and for approval to recover the costs from its ratepayers

What?

Union Gas Limited (Union) has applied to the Ontario Energy Board (OEB) for approval to construct 13.9 kilometers of natural gas pipeline and associated facilities that will run from the City of Cambridge to the City of Hamilton. Union has also applied for approval to construct compressor facilities in the Town of Milton at the proposed Parkway West Compressor Station. The purpose of the compressor facilities is to move gas through the proposed new pipeline. The approximate total cost of the project is \$204 million. Please see attached maps for details of the proposed pipeline route and compressor site. Construction of the proposed pipeline is scheduled to commence in 2014. Union has also applied to recover the costs of the project from ratepayers starting when the project is completed in January 2015.

Why?

Union Gas says that the proposed project will provide greater reliability of supply and allow for more gas to flow through its main transmission system feeding the Greater Toronto Area.

The Ontario Energy Board's Role

The OEB will hold a hearing to consider whether Union's request for approval to construct the natural gas pipeline (and associated facilities) should be approved. The Board will also determine if Union will be permitted to recover the costs of the project through the rates Union charges to consumers.

Have Your Say

There are several ways you can get involved in the process:

- You can apply for intervenor status, which will allow you to participate more actively.
- You can file a Letter of Comment with the OEB.
- You can become an observer which allows you to receive OEB documents and monitor the proceeding but not take an active role.

To learn more about how to participate, please visit

www.ontarioenergyboard.ca/participate

Deadlines

To become an intervenor or an observer, your deadline to file documents with the OEB is 10 days from the publication or service date of this notice. If you miss this deadline, the hearing will proceed without you. You will not receive any further notice of the proceeding.

If you choose to file a letter of comment, you must file it no later than 30 days from the publication or service date of this notice.

Personal Information

Your personal information is treated differently depending on how you choose to participate.

If you file a letter of comment or request to become an observer, your name and the content of your letter to the OEB will be put on the public record and on the OEB's website, but your personal telephone number, address, fax number or e-mail address will be removed from the letter. Any business information will be public.

If you choose to become an intervenor anything you file with the OEB including your name and personal contact information will be placed on the OEB website and will be available for the public to view.

Written vs. Oral Hearings

The OEB has not determined whether it will hold a written or oral hearing in this case. That decision will be made later in this process.

Learn More

To learn more about this hearing and your options to get involved, please visit our website www.ontarioenergyboard.ca/participate or phone our Consumer Relations Centre at 1-877-632-2727. You can access all documents related to this case by searching the file number EB-2013-0074 on the OEB website.

This hearing will be held under sections 19, 36 and 90(1) of the *Ontario Energy Board Act, 1998, S.O. 1998 c.15 (Schedule B)*.

Union Gas Brantford-Kirkwall/Parkway D Compressor Project

ONTARIO ENERGY BOARD

IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S. 36 thereof;

AND IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S.90.(1) thereof;

AND IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S.91 thereof

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders for pre-approval of recovery of the cost consequences of all facilities associated with the development of the proposed Brantford-Kirkwall/Parkway D Compressor Station project;

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders for pre-approval of the cost consequences of two long term short haul transportation contracts;

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders granting leave to construct natural gas pipelines and ancillary facilities in the City of Cambridge and City of Hamilton.

UNION GAS LIMITED

1. Union Gas Limited (the "Applicant" or "Union") hereby applies to the Ontario Energy Board (the "Board"), pursuant to Section 36 of the Ontario Energy Board Act (the "Act") for an Order or Orders granting:
 - a) pre-approval of recovery of the cost consequences of all facilities associated with the development of the proposed Brantford-Kirkwall pipeline and Parkway D Compressor Station project from ratepayers;

- b) approval of an accounting order to establish the Brantford-Kirkwall/Parkway D Deferral Account.
 - c) pre-approval of the cost consequences of two long term transportation contracts
2. The Applicant also hereby applies to the Board, pursuant to Section 90(1) of the Act, for an Order or Orders granting leave to construct 13.9 kilometres of NPS48 pipeline from the Brantford Valve Site to the Kirkwall Custody Transfer Station (“Proposed Pipeline”).
 3. The Applicant also hereby applies to the Board, pursuant to Section 91 of the Act, for an Order or Orders granting leave to construct the Parkway D Compressor, including measurement and associated facilities (“Proposed Parkway D Compressor”).
 4. Attached hereto as Schedule ‘A’ are two maps showing the general location of the proposed pipelines, and associated facilities and the municipalities, highways, railways and utility lines through, under, over, upon or across which the pipeline will pass.
 5. Attached hereto as Schedule ‘B’ is an Executive Summary describing the proposed project.
 6. The parties affected by this Application are the owners of lands over which the pipeline will be constructed, and Union’s transportation and wholesale customers with respect to quality of service and security of supply. The persons affected by this application are the customers resident or located in the Municipalities, Police Villages and First Nations Reserves served by Union, together with those to whom Union sells gas, or on whose behalf Union distributes, transmits or stores gas. It is impractical to set out in this application the names and addresses of such persons because they are too numerous.

7. The Applicant now therefore applies to the Board for an Order or Orders for pre-approval of recovery of the cost consequences, pre-approval of two long term transportation contracts and granting leave to construct the Proposed Pipeline as described above, as well as the Proposed Parkway D Compressor.
8. The address for service for Union is:

UNION GAS LIMITED

Karen Hockin, Manager Regulatory Initiatives

Union Gas Limited Proposed Brantford-Kirkwall Pipeline

Schedule A

SCHEDULE "B"

EXECUTIVE SUMMARY

1. North American natural gas markets are experiencing dramatic changes. Production from mature natural gas basins such as the Western Canadian Sedimentary Basin is in decline while new production basins like Marcellus and Utica have emerged. Marcellus shale gas production alone has increased by nearly 7 PJ/d since the beginning of 2007, with supply expected to more than triple by 2035.
2. The increase in shale and other non-traditional gas supply has put downward pressure on natural gas prices and reduced price volatility. It has also changed the price differentials across North America and impacted market behavior. Market participants are moving away from long haul transportation. They are contracting short haul transportation to move supply purchased at liquid hubs located closer to market areas. This has increased demand for transportation on the Dawn-Parkway System and created an opportunity for Union Gas Limited ("Union") to diversify its natural gas supply portfolio for Union North.
3. This application by Union is brought in response to these fundamental market changes. The application consists of the following five requests:
 - (1) Section 90 Application for leave to construct a NPS48 pipeline from the existing Brantford Valve Site to the Kirkwall Custody Transfer Station ("Proposed Pipeline");
 - (2) Section 91 Application for leave to construct the Parkway D compressor, including measurement, and associated facilities ("Proposed Parkway D Compressor");together the "Project"
- (3) Section 36 Application for pre-approval for recovery of the cost consequences of all facilities associated with the development of the Project from ratepayers, effective January 1, 2015;

SCHEDULE "B"

- (4) Section 36 Application for approval of an accounting order to establish the Brantford-Kirkwall/Parkway D Deferral Account; and
 - (5) Section 36 Application for pre-approval of the cost consequences of two long term short haul transportation contracts on the TransCanada Pipelines Limited ("TCPL") Mainline;
4. The facilities and new short haul transportation contracts described in the application will produce significant benefit for Union's in-franchise customers, particularly in Union North. The gas supply savings to the Union North sales service and bundled direct purchase customers are expected to be between \$180 million and \$280 million over the next ten years.
5. The facilities proposed by Union were determined in consultation with Enbridge Gas Distribution ("Enbridge"), TCPL and Gaz Métro Limited Partnership ("Gaz Métro"). The proposed facilities complement Union's Parkway West Project and projects being developed by Enbridge and TCPL. The further benefits of the Project include: diversity and security of supply for Union, Enbridge, and Gaz Métro; and, an affordable source of natural gas for the proposed Enbridge and TCPL expansions. Between Union, Enbridge, and Gaz Métro up to \$2.0 billion in gas supply cost savings is possible between 2015 and 2025 should the Project proceed.
6. By building the Project, Union is pro-actively addressing the impacts of future turn back. Union will be better positioned to re-purpose or re-sell turn back capacity provided market opportunities exist. The ability to re-purpose or re-sell turn back capacity would help mitigate future rate risk for Union's customers. In addition, the Project supports continued growth of the Dawn Hub, which increases depth, liquidity and price competitiveness of gas supply options for Ontario customers over the long term.

SCHEDULE "B"

7. The total estimated capital cost of the Project is \$204 million. The largest revenue requirement associated with the Project increases to approximately \$15.9 million over the 2015 to 2018 period. The Project will result in: (i) an increase of costs of approximately \$1.6 million, allocated to Union North in-franchise rate classes, (ii) an increase of costs of approximately \$16.0 million allocated to ex-franchise rate classes and (iii) a reduction in costs of approximately \$1.7 million, allocated to Union South in-franchise rate classes. The ex-franchise customers that will bear the majority of the costs associated with the Project are supportive
8. Total residential bill impacts were calculated to include the combined impacts of the gas cost savings associated with Union's long term contracting proposal and the Project. Total residential bill impacts were calculated to reflect the combined impact of the gas cost savings associated with Union's long term contracting proposal and the Project. For the average Rate 01 residential customer in Union North consuming 2,200 m³ per year, the total bill impact is a reduction of (\$42.00 to \$43.00) per year as compared to Union's current approved rates (per EB-2011-0210). For the average Rate M1 residential customer in Union South consuming 2,200 m³, the total bill impact is a reduction of approximately (\$1.12) per year.
9. For ex-franchise customers, and others that use the Dawn-Parkway System, the M12 rate will increase from \$0.078/GJ/d to \$0.091/GJ/d upon completion of the Parkway West Project and this Project. Union's M12 rate has traditionally ranged from \$0.07/GJ/d to \$0.10/GJ/d. This increased rate of \$0.091/GJ/d is within this historic range.
10. Union proposes to start construction in the summer of 2014 with a target in-service date of the fall of 2015. Given that Union is required to order the long lead delivery items in 2013, Union is seeking a Board decision by September 15, 2013.

SCHEDULE "B"

11. In summary, the Project addresses the increase in demands on the Dawn-Parkway System; results in significant benefits for Ontario energy consumers, Union's in-franchise and ex-franchise customers; and represents rational development of Union's facilities. Accordingly, the Project should be approved by the Board.

NOTICE OF APPLICATION

Union Gas Limited has applied for approval to build a natural gas pipeline and supporting infrastructure in the City of Cambridge and City of Hamilton, and for approval to recover the costs from its ratepayers

What?

Union Gas Limited (Union) has applied to the Ontario Energy Board (OEB) for approval to construct 13.9 kilometers of natural gas pipeline and associated facilities that will run from the City of Cambridge to the City of Hamilton. Union has also applied for approval to construct compressor facilities in the Town of Milton at the proposed Parkway West Compressor Station. The purpose of the compressor facilities is to move gas through the proposed new pipeline. The approximate total cost of the project is \$204 million. Please see attached maps for details of the proposed pipeline route and compressor site. Construction of the proposed pipeline is scheduled to commence in 2014. Union has also applied to recover the costs of the project from ratepayers starting when the project is completed in January 2015.

Why?

Union Gas says that the proposed project will provide greater reliability of supply and allow for more gas to flow through its main transmission system feeding the Greater Toronto Area.

The Ontario Energy Board's Role

The OEB will hold a hearing to consider whether Union's request for approval to construct the natural gas pipeline (and associated facilities) should be approved. The Board will also determine if Union will be permitted to recover the costs of the project through the rates Union charges to consumers.

Have Your Say

There are several ways you can get involved in the process:

- You can apply for intervenor status, which will allow you to participate more actively.
- You can file a Letter of Comment with the OEB.
- You can become an observer which allows you to receive OEB documents and monitor the proceeding but not take an active role.

To learn more about how to participate, please visit www.ontarioenergyboard.ca/participate

Deadlines

To become an intervenor or an observer, your deadline to file documents with the OEB is 10 days from the publication or service date of this notice. If you miss this deadline, the hearing will proceed without you. You will not receive any further notice of the proceeding.

If you choose to file a letter of comment, you must file it no later than 30 days from the publication or service date of this notice.

Personal Information

Your personal information is treated differently depending on how you choose to participate.

If you file a letter of comment or request to become an observer, your name and the content of your letter to the OEB will be put on the public record and on the OEB's website, but your personal telephone number, address, fax number or e-mail address will be removed from the letter. Any business information will be public.

If you choose to become an intervenor anything you file with the OEB including your name and personal contact information will be placed on the OEB website and will be available for the public to view.

Written vs. Oral Hearings

The OEB has not determined whether it will hold a written or oral hearing in this case. That decision will be made later in this process.

Learn More

To learn more about this hearing and your options to get involved, please visit our website www.ontarioenergyboard.ca/participate or phone our Consumer Relations Centre at 1-877-632-2727. You can access all documents related to this case by searching the file number EB-2012-0433 on the OEB website.

This hearing will be held under sections 19, 36 and 90(1) of the *Ontario Energy Board Act, 1998, S.O. 1998 c.15* (Schedule B).

AVIS DE REQUÊTE

Union Gas Limited a déposé une requête afin d'obtenir l'autorisation de construire un pipeline de gaz naturel et une infrastructure de soutien dans la Ville de Cambridge et dans la Ville d'Hamilton et afin d'obtenir l'autorisation de recouvrer ces coûts auprès de ses utilisateurs.

Quoi?

Union Gas Limited (Union) a demandé à la Commission de l'énergie de l'Ontario (CEO) l'autorisation de construire un pipeline de gaz naturel mesurant 13,9 kilomètres, ainsi que les installations connexes, qui reliera la Ville de Cambridge à celle d'Hamilton. Union a également demandé l'autorisation de construire des installations de compression dans la Ville de Milton, à la centrale de compression Parkway West proposée. Les installations de compression visent à faire circuler le gaz dans le nouveau pipeline proposé. Le coût total approximatif du projet est de 204 millions de dollars. Veuillez voir les cartes ci-jointes pour plus de détails sur le tracé proposé pour le pipeline et sur l'emplacement des installations de compression. La construction du pipeline proposé devrait débuter en 2014. Union a également fait une demande pour recouvrer les coûts du projet auprès de ses utilisateurs lorsque le projet sera mené à bien en janvier 2015.

Pourquoi?

Union Gas affirme que le projet proposé fournira une meilleure fiabilité quant à l'approvisionnement et permettra au principal réseau de transport qui alimente la région du Grand Toronto d'acheminer davantage de gaz.

Le rôle de la Commission de l'énergie de l'Ontario

La CEO tiendra une audience afin d'étudier si la demande d'autorisation de construire le pipeline de gaz naturel (et les installations connexes) de Union Gas Limited devrait être approuvée. La Commission déterminera également si Union aura la permission de recouvrer les coûts du projet par l'entremise des tarifs facturés à ses consommateurs.

Faites valoir votre opinion

Vous pouvez participer au processus de plusieurs manières :

- Vous pouvez faire une demande de statut d'intervenant, ce qui vous permettra de participer au processus plus activement.
- Vous pouvez déposer une lettre de commentaires auprès de la CEO.
- Vous pouvez devenir un observateur, ce qui vous permet de recevoir les documents émis par la CEO et de suivre l'instance sans toutefois jouer un rôle actif.

Pour en savoir plus sur les façons de participer au processus, veuillez consulter la page Web suivante :

http://www.ontarioenergyboard.ca/OEB/Industry/Regulatory%20Proceedings/Hearings/Participating%20in%20a%20Hearing/Participating%20in%20a%20Hearing_fr.

Dates limites

Pour devenir un intervenant ou un observateur, la date limite pour déposer vos documents auprès de la Commission est 10 jours après la date de publication ou de signification de cet avis. Si vous ne respectez pas cette date limite, l'audience se poursuivra sans vous. Vous ne recevrez aucun autre avis concernant cette instance.

Si vous décidez de déposer une lettre de commentaires, vous devez la déposer au plus tard 30 jours après la date de publication ou de signification de cet avis.

Renseignements personnels

Vos renseignements personnels seront traités différemment selon la manière dont vous choisirez de participer.

Si vous déposez une lettre de commentaires ou une demande pour devenir un observateur, votre nom et le contenu de votre lettre à la CEO seront versés au dossier public et affichés sur le site Web de la CEO. Cependant, vos renseignements personnels comme votre numéro de téléphone, votre adresse, votre numéro de télécopieur et votre adresse électronique seront retirés de la lettre. Tout renseignement professionnel sera public.

Si vous choisissez de devenir un intervenant, tout ce que vous déposez auprès de la CEO, incluant votre nom et vos coordonnées, sera affiché sur le site Web de la CEO et pourra être consulté par le public.

Audiences écrites ou orales

La CEO n'a pas déterminé si elle tiendra une audience écrite ou orale pour ce dossier. Cette décision sera prise plus tard dans le processus.

En savoir plus

Pour en savoir plus sur cette audience et vos options pour y participer, veuillez consulter notre site Web à l'adresse http://www.ontarioenergyboard.ca/OEB/Industry/Regulatory%20Proceedings/Hearings/Participating%20in%20a%20Hearing/Participating%20in%20a%20Hearing_fr ou appelez notre Centre des relations avec les consommateurs au 1-877-632-2727. Vous pouvez accéder à tous les documents relatifs à ce dossier en recherchant le numéro de dossier EB-2012-0433 sur le site Web de la CEO.

Cette audience sera tenue en vertu des articles 19 et 36 et du paragraphe 90(1) de la *Loi de 1998 sur la Commission de l'énergie de l'Ontario*, L.O. 1998, chap. 15 (annexe B).
