

Board Staff Interrogatories

PowerStream Inc.

Application for a Board-Approved CDM Program

EB-2013-0070

Ref: Executive Summary

1. Please explain what analysis PowerStream has done to project a participation rate of 1,200 customers by the end of 2014.

Ref: Executive Summary

2. Please explain if the projected 1,200 customers could potentially come from all of PowerStream's service areas (Barrie, Markham, Richmond Hill, Vaughan etc.), or will certain service areas be targeted.

Ref: Executive Summary

3. PowerStream will be providing participating customers "up to \$2,500 of eligible refrigeration measures and services and installed at no charge". Please explain why PowerStream thinks providing up to \$2,500 of eligible refrigeration measures is an appropriate amount.

Ref: Section 8.3 Budget

4. Table 8 indicates that all salaries and labour costs including benefits is \$674,000. The cost driver for this amount is "estimated number of days per year for existing CDM staff". Please explain if the \$674,000 is in addition to what has been previously recovered through distribution rates.
