Dear Sir/Madame:

The Corporation of the County of Bruce would like to provide comment on the above noted matter.

As you are aware, the Bruce to Milton line runs through our County, and over many County owned roads, so we naturally take an interest in all matters related to this transmission corridor.

We find ourselves at somewhat of a disadvantage as we just learned of the proposal from the local newspaper. The support document for the proposal on the OEB website is in excess of 500 pages long and we have not had the time to properly inform ourselves on the proposal.

At this point in time we do not know to what extent, if any, this transaction will affect the Corporation of the County of Bruce or our residents.

It is not our desire to delay your decision on this matter. Please provide us with four weeks to provide further comments on the matter.

Sincerely,

Dave Inglis  
Warden
