Ms. Kirsten Walli Board Secretary Ontario Energy Board P.O. Box 2319 27th Floor – 2300 Yonge Street Toronto, ON M4P 1E4

Re: Sioux Lookout Hydro Inc. - 2013 Cost of Service Electricity Distribution Rate Application EB-2012-0165 Written Responses to Supplemental Interrogatories

Dear Ms. Walli:

Please find enclosed Sioux Lookout Hydro Inc.'s (SLHI) written responses to supplemental interrogatories as filed by Board Staff and Vulnerable Energy Consumers Coalition (VECC).

These responses are being filed pursuant to the Board's e-Filing Services. Two hard copies of the responses will be delivered to the Board via registered mail. In addition, one electronic copy will be forwarded to all intervenors.

Also attached please find the following:

- Sioux Lookout 2013 Rev Reqt Work form V3 updated 20130529
- SiouxLookout Filing Requirements Chapter2 Appendices V1.1 updated 20130529
- Sioux Lookout 2013 Test year IncomeTax PILs workform V2 updated 20130529

An electronic version of these responses has been submitted through the e-Filing Services.

If you require any further information, please do not hesitate to contact me at (807)737-3800 or via email at dkulchyski@tbaytel.net.

Sincerely,

Deanne Kulchyski, ČGA, BComm(Hons)

President/CEO

APPENDICES	
Appendix A – Conditions of Service – Construction Development Fees	•
Appendix B – 2012 T2 Corporation Income Tax Return	

1-VECC-38

Ref: 1-Staff-5

- a) Please provide the list of construction development fees included in SLHI's Condition of Service.
- b) It appears from the response to the interrogatory that SLHI does earn revenues from these fees, but that they are offset by equal costs. Please confirm this is correct and if so please provide the revenues and costs (and providing a description of the costs) for 2012 from these services and the forecast for 2013.
- c) If this is not correct then please explain why, if SLHI does not earn any revenues from these fees (i.e. they are not charged to anyone), it continues to include them in its Conditions of Service.

SLHI Response

- a) See Appendix A for the list of construction development fees included in SLHI's Condition of Service.
- b) SLHI confirms this is correct. The revenue and costs for 2012 are as follows:

Description	Dovonuos	Costs						
Description	Revenues	Materials	Overhead					
3/0 USEI-90	\$7,137	\$5,287	\$1,850					
250 MCM USEI-90	\$6,690	\$5,192	\$1,498					
1/0 28 kV Power Cable	\$2,325	\$1,978	\$347					
300 kVa Padmount Transformer	\$20,905	\$15,485	\$5,420					

The forecast for 2013 is:

Description	Revenues	Costs							
Description	Revenues	Materials	Overhead						
3/0 USEI-90	\$6,312	\$4674	\$1,638						
250 MCM USEI-90	\$5,055	\$3,745	\$1,310						

The forecast for 2013 does not include any values for padmount transformers, 1/0 Power Cable or the materials listed on Schedule 4 of Appendix A because the demand for these materials is solely customer driven. SLHI generally does not receive notification of the

Sioux Lookout Hydro Inc. EB-2012-0165 Response to Supplemental Interrogatories Page 4 of 30

need for these materials until just a few months or weeks before the customer requires them.

c) The construction development fees listed in Appendix A are for materials used and are based on 2007 costs. In the next version of the Conditions of Service SLHI will not provide specific costs as they will vary from year to year based on actual prices.

Sioux Lookout Hydro Inc. EB-2012-0165 Response to Supplemental Interrogatories Page 5 of 30

1-VECC-39

Ref: Updated RRWF

a) Please explain the change shown at Tab 6 of the revised RRWF form (V3_20130516) - Taxes-PILS where the "Adjustments required to arrive at taxable utility income" are reduced from \$162,444 to \$97,170.

SLHI Response

a) SLHI updated the 2012 and 2013 CCA Continuity Schedules and filed them as part of 4-Staff-40s in the updated PILs Work form. As a result of interrogatory 4-Staff-40s, the adjustment has been revised to \$78,709. The amortization expense for 2013 was updated due to the balance forward from 2012 updates. The change was \$255,875 as originally filed to \$253,562. SLHI also updated the 2012 CCA Continuity Schedule to the actual Tax Return. This reduced the CCA for 2013 from \$412,370 as originally filed to \$346,322. The original application also did not include the Apprenticeship Tax Credit as explained in interrogatory 4-Staff-40s.

2-Staff-33s Gross Fixed Assets

Ref: 2-VECC-12

Ref: Updated Revenue Requirement Work Form/Tab 3

Board staff notes that resulting from the interrogatory process, the Net Fixed Assets (Average) component of Rate Base is adjusted upwards by \$44,461.

a) Please identify and provide in summary form the components causing the upward adjustment.

SLHI Response

a) The upwards adjustment is a result of updating the 2012 forecasted Capital additions to actual. A summary of the components causing the adjustment is as follows:

Project	2012 Variance in Actual to Forecast – Gross Assets
Moosehorn Road Upgrade	\$26,447
New Connections	42,848
Projects < 50,000	26,404
Contributed Capital	7,947
Line Truck Betterment	(53,691)
Work in Progress	(6,723)
Total	\$43,232
Change in 2012 Accumulated Amortization	\$280
Change in 2013 Accumulated Amortization	2,556
Average Accumulated Amortization Change*	\$1,418

^{*}Difference of \$9 from RRWF is immaterial

3-Staff-34s – Load Forecasting

Ref: 3-Staff-11, 3-VECC-11, 3-VECC-12

Please provide a regression analysis with the following specifications:

- No intercept;
- Use of most recent Fall 2012 outlook from the Ontario Ministry of Finance for Ontario GDP;
- Exclusion of "Pulp Mill Flag"; and
- Dependent variable adjusted to exclude the loss-adjusted pulp mill consumption.
- a) Please provide all regression results, including the MAPE based on monthly residuals and actuals.
- b) Please provide the plot of monthly actual against predicted, in the same format as provided in 3-Staff-11 c).

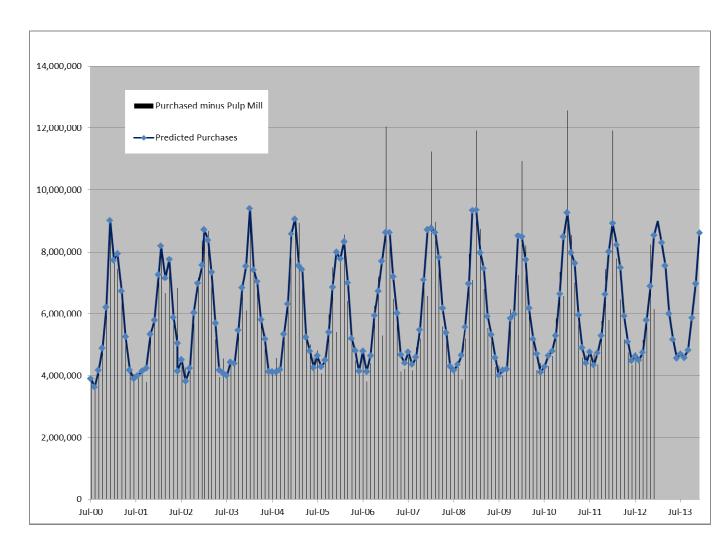

SLHI Response

The regression analysis has been rerun to include the following specifications:

- No intercept;
- Use of most recent Fall 2012 outlook from the Ontario Ministry of Finance for Ontario GDP:
- Exclusion of "Pulp Mill Flag"; and
- Dependent variable adjusted to exclude the loss-adjusted pulp mill consumption.
- a) The regression results, including the MAPE based on monthly residuals and actuals is provided below

Statistics							
R Square	98.2%						
Adjusted R Square	97.	4%					
F Test	247	72.6					
MAPE (Mean Absolute Percent Error) on Monthly Values	7.6%						
Variable	Coefficients	T-stat					
Intercept	0	#N/A					
Heating Degree Days	4,815	19.8					
Cooling Degree Days	10,623	2.8					
Ontario Real GDP Monthly %	26,745	21.2					
2012 Power Purchased Foreca	st (GWh)	75.2					
2013 Power Purchased Foreca	st (GWh)	76.1					

b) The plot of monthly actual against predicted purchases excluding the pulp mill values is outlined below, in the same format as provided in 3-Staff-11 c).

Sioux Lookout Hydro Inc. EB-2012-0165 Response to Supplemental Interrogatories Page 10 of 30

3-Staff-35s – Unmetered Scattered Load

Ref: 3-Staff-12, Exhibit 7, Exhibit 8

In response to interrogatory 3-Staff-12, SLHI explained that the decline in USL connections is a result of installing meters for these loads.

- a) What class of customer are the converted metered USL connections now categorized as (e.g. as GS < 50 kW)?
- b) SLHI states that it has one unmetered USL connection remaining in service in 2013.
 - i) Does SLHI have plans to meter this remaining connection?
 - ii) What is SLHI's policy with respect to metering any new USL connections that might be requested in the future?

SLHI Response

- a) The converted metered USL connections are now categorized as GS < 50 kW.
- b) SLHI would like to convert this customer to metered, and any future requests for new USL connections will be required to be metered.

Sioux Lookout Hydro Inc. EB-2012-0165 Response to Supplemental Interrogatories Page 11 of 30

3-Staff-36s – CDM Adjustment

Ref: 3-Staff-13, Exhibit 4/Appendix 4D

In the response to 3-Staff-13 part c), SLHI states:

Sioux Lookout Hydro agrees with the methodology used to determine the CDM savings that will underlie the 2013 CDM amount for the LRAMVA. With regards to the manual CDM adjustment for the 2013 test year load forecast, Sioux Lookout Hydro submits it should be a value that represents the net level since this is consistent with 2013 cost of service settlement agreements to date. In addition, the 2011 value should not be included in the manual CDM adjustment. The results of the 2011 programs and how they persist into 2013 have been reflected in the actual 2011 power purchases used in the regression analysis. In Sioux lookout Hydro's view to include the 2012 value in the manual CDM adjustment would be a double count. With regards to the 2013 value used in the manual CDM adjustment, Sioux Lookout Hydro's understanding that there should be consistent treatment on how the load forecast is adjusted and how the LRAMVA threshold is determined. Since a full year amount is used in the LRAMVA threshold calculation for 2013 then a full year for 2013 should be used in the manual CDM adjustment. [Emphasis added]

- a) What is the basis for SLHI's "understanding that there should be consistent treatment on how the load forecast is adjusted and how the LRAMVA threshold is determined."
- b) The Tab "Methodology" of Exhibit 4/Appendix 4-D states has the following statement with respect to OPA-reported results: "All savings are annualized (i.e. the savings are the same regardless of time of year a project was completed or measure installed)". In other words, the reported results assume that the program was fully in place from January 1 to December 31. In reality, a given year's CDM program will be implemented at some point in the year, and the savings will begin to be realized as customers take advantage and implement the savings initiatives. In other words, the impact of the 2013 CDM programs on the 2013 consumption and demand will not reflect the full "annualized" savings in 2013. Please provide further explanation as to why SLHI believes that that the full year 2013 CDM savings should be used for the adjustment.

SLHI Response

a) and b)

In SLHI's view the LRAMVA amount is the amount that represents the level of adjustment made to the load forecast for CDM results in 2013 from 2011, 2012 and 2013 programs. However, if the LRAMVA amount is calculated in a different manner (i.e. on a full year basis) compared to how the load forecast is adjusted for the CDM results (i.e. on a half year basis) this suggests to SLHI there is an inconsistency that could possibly

Sioux Lookout Hydro Inc. EB-2012-0165 Response to Supplemental Interrogatories Page 12 of 30

disadvantage the customer or SLHI when the true-up of LRAMVA is conducted. When the actual 2013 CDM results are known, sometime in 2015, the true-up calculations will be performed and the actual CDM results will be compared to the LRAMVA value assumed in the load forecast. Two years from now this comparison could lead to confusion for those calculating the level of true-up when it is determined the CDM adjustment to the load forecast is based on a half year rule but the LRAMVA amount is based on a full year basis. This could especially be true if those determining the true-up amount were not involved in this proceeding. In SLHI's view it would increase the understanding, reduce the risk of confusion and improve the process if the CDM adjustment to the load forecast and the LRAMVA amount was determined on a consistent basis. If the LRAMVA amount is determined on a full year basis then the CDM adjustment should be determined on a full year basis. However, if the CDM adjustment is determined on a half year basis then the LRAMVA should also be calculated on a half year basis.

3-VECC-40

Ref: 3-VECC-13

a) Given the GS<50 customer count increased in 2012 (over 2011) as opposed to decreasing as forecast by SLHI, is there a need to revise the forecast customer count for this class for 2013? If yes, what is SLHI's view as to what the revised forecast should be? If no, why not?

SLHI Response

a) Based on the actual average 2012 customer count results, it is SLHI's view the forecasted average 2013 customer count for the GS < 50 kW and the GS > 50 rate classes should be set at the 2012 average customer count value and this would be reflected once final rates are determined.

3-VECC-41

Ref: 3-VECC-14

a) If available, please provide a copy of the OPA's preliminary 2012 CDM report for SLHI.

SLHI Response

a) The OPA's preliminary 2012 CDM report for SLHI was not available at the time of submission of these interrogatories.

3-VECC-42

Ref: 3-Staff-13

a) For those classes that are demand billed (GS > 50 and Street Lights), please indicate what the 2013 billing demand values would be for the LRAMVA and explain how they were determined.

SLHI Response

a) Please refer to Exhibit 3, Tab 2, Schedule 1, Page 16 of 19 of the Application and Table 3-16 shown on the referenced page.

3-VECC-43

Ref: 3-VECC-15

- a) Are there any activities, apart from participation in the OPA's CDM programs that contribute to the Revenues and Expenses reported for 2012 in accounts #4375 and #4380 respectively?
- b) If yes, please explain what they are and provide a schedule that separates out the actual 2012 and forecast 2013 values for these two accounts as between those that are related to OPA CDM programs and those that are related to other activities.

SLHI Response

- a) There are no activities apart from participation in the OPA's CDM programs that contribute to the Revenues and Expenses reported for 2012 in accounts #4375 and #4380.
- b) N/A

4-Staff-37s – Inflation

Ref: 4-Staff-15

SLHI states that it relied on the update released by the Board on March 13, 2012, and that the non-labour inflation, except where increases are directly known, is 2%.

a) Please confirm that the Board update referred to is the annual 2011 GDP-IPI change issued by the Board for 2012 IRM applications with May 1, 2012 effective dates. If not, please explain.

SLHI Response

a) SLHI confirms that the Board update referred to is the annual 2011 GDP-IPI change issued by the Board for 2012 IRM applications with May 1, 2012 effective dates.

4-Staff-38s – Depreciation Expense

Ref: 4-Staff-14, Table 4.74

Ref: Exhibit 2, Tab 5, Schedule 4, page 3, Table 2.54

In the pre-filed evidence Sioux Lookout provided Table 2.54: "Variance Account 1576 – in relation to PP&E Changes under CGAAP" which showed that a credit adjustment of (\$24,722) to 2013 Depreciation Expense was made to clear Account 1576.

In the response to updated Table 4.74 for IR 4-Staff-14, Sioux Lookout provided an updated adjustment to 2013 Depreciation Expense to clear Account 1576 – a credit adjustment to depreciation expense of (\$26,188).

An updated Table 2.54 was not provided with the response to IR 4-Staff-14 which showed the derivation of the updated adjustment to 2013 Depreciation Expense to clear Account 1576.

a) Please provide an updated Table 2.54 that shows the derivation of the updated adjustment to 2013 Depreciation Expense to clear Account 1576 – a credit adjustment to depreciation expense of (\$26,188).

SLHI Response

a) In the updated Table 4.74 for IR 4-Staff-14 the amount of \$(26,188) includes an adjustment of \$(1,466) for Sentinel Light depreciation. SLHI has updated Table 4.74 below to show the two amounts separately.

etc.		\$ -		0.00%	\$ -	\$ -	\$ -	
		\$ -		0.00%	\$ -	\$ -	\$ -	
	Total	\$227,940.00			\$ 250,720.03		9 -\$ 2,841.66	
	Depreciation Expense included in relevant expen				-\$ 44 839 NO			

Depreciation Expense included in relevant expense accounts Immaterial difference due to notes explained in Ex 4/Tab 2/Sched 7/p. 8 Sentinel Light depreciation

Depreciation expense adjustment resulting from amortization of Account 1576

Total Depreciation expense to be included in the test year revenue requirement

\$ 250,720.03 0 \$ 44,839.00 \$ 2,841.66 -\$ 1,466.00 -\$ 24,722.00 \$ 182,534.69

Therefore the amount of the credit adjustment was unchanged from Table 2.54 of \$(24,722). SLHI has provided an updated Table 2.54 below to reflect the actual 2012 additions. The change in the credit adjustment applied for as a result of actual 2012 capital additions would be a reduction in the credit by \$426 per year (\$97,185/4 years = \$24,296, \$(24,296) - \$(24,722) = \$426). SLHI believes this amount is not material and therefore requests that the \$(24,722) originally applied for remain unchanged.

4-Staff-40s – PILs

Ref: Income Tax/PILs Work Form for 2013 Filers

Ref: Exhibit 4, Tab 3, Schedule 1

Ref: Tab 9 of updated Revenue Requirement Work Form ("RRWF")

SLHI did not file updated PILs evidence in its response to interrogatories. As a result of updating other evidence through the interrogatory phase of this proceeding, SLHI appears to have updated the amount of PILs it is proposing to recover in rates from \$11,066 to \$22,680, as indicated in the updated RRWF.

a) Please update the Income Tax/PILs Work Form, Exhibit 4/Tab 3/Schedule 1, and any other applicable evidence for any changes required to the amount of PILs SLHI is proposing to recover in rates.

SLHI Response

a) SLHI has updated the Income Tax/PILs Work Form and filed it as part of these supplemental interrogatories. In order to mirror the tax returns submitted to the CRA, the Work Form was modified to accommodate an adjustment made to SLHI's 2012 CCA Schedule which were not subject to the half year rule. Subsequently, a column was added to Sheet "I. Schedule 8 CCA Bridge Year" after Column F "Additions" labelled "Net Adjustments".

SLHI's tax advisor (BDO Canada LLP) recommended a straight reclassification in 2012 for an amount of \$84,252 included in Class 47 in 2009 for the addition of smart meters. In 2012 when SLHI disposed of the variance account 1555, it was discovered that there were amounts that should have been allocated to Class 50 and Class 12. Since the amounts were originally included as additions in the 2009 CCA Schedule and subject to the half year rule at the time, the reclassified amounts were not subject to the half year rule. It was also deemed by our tax advisor that amendments to the 2009 to 2011 tax returns were not necessary due to the amounts being immaterial.

SLHI has filed a copy of its 2012 T2 Corporate Tax Return as Appendix B.

Once the PILs Work Form was updated the Tax Credit Calculations were revisited. Table 4.3-3, Exhibit 4, Tab 3, Schedule 1, page 3 lists the 2013 eligible Apprenticeship Tax credit as \$20,000. This was not included in the 2013 Test year PILs calculation because it would have resulted in a negative tax payable. SLHI has applied the Apprenticeship Tax credit to the revised proposed PILs for 2013. There was also a discrepancy in the amount of proposed PILs to recover in the first updated RRWF and the updated PILs Work Form of \$283. SLHI has filed an amended RRWF as part of these interrogatories to include the Apprenticeship Tax Credit and the \$283 correction resulting in proposed Test year PILs of \$2,397.

Tables 4.43, 4.44, 4.46 and 4.48 of the original application are updated and presented below:

4-Staff-41s – One-time Cost/HR Expense

Ref: 4-VECC-18,

Ref: Exhibit 4, Tab 1, Schedule 1, page 6 Ref: Exhibit 4, Tab 2, Schedule 4. Page 5

a) Is the \$84,746 one-time HR expense incurred in 2012 and referenced in 4-VECC-18 related to the severance package paid to the employee (lineman) who left the company in 2012?

SLHI Response

a) Yes the \$84,746 one-time HR expense is related to the severance package and consulting fees.

4-VECC-44

Ref: 4-VECC-16/4-VECC-20

- a) Is the \$78,832 in smart meter maintenance and operations costs discussed in the interrogatory response the total of the incremental costs related to the ongoing use of smart meters? If not, please identify all the smart meter incremental OM&A costs.
- b) Please provide the amount of any offsetting reduction in costs related to meter reading.

SLHI Response

- a) Yes the \$78,832 is the total of the 2012 forecasted incremental costs related to the ongoing use of smart meters included in the original application and discussed in interrogatory 4-VECC-16.
- b) The offsetting reduction in costs related to meter reading expense are approximately \$75,800 as explained in Exhibit 4, Tab 2, Schedule 3, page 10 of the original application and redistributed to Operations expense.

Sioux Lookout Hydro Inc. EB-2012-0165 Response to Supplemental Interrogatories Page 25 of 30

4-VECC-45

Ref: 4-Staff-17

a) What portion of the \$81,370 identified in the interrogatory response as the incremental costs for the 2013 cost of service application and the change in capitalization, due solely to the change in capitalization policy?

SLHI Response

a) The amount identified in interrogatory 4-Staff-17 that is due solely to the change in capitalization policy is \$39,127. These costs (\$81,370) will remain unchanged in the application.

6-Staff-42s – Revenue Requirement

Ref: Updated Revenue Requirement Work Form/Tab 8 and Tab 9

Board staff notes that through the interrogatory process, the Revenue Requirement (Service and Base) is adjusted upwards by \$35,935.

a) Please identify and provide in summary form the components causing the upward adjustment.

SLHI Response

a) SLHI has provided a summary of the components causing the upward adjustment of the revised RRWF of \$15,653 below:

Description	
Increase in interest expense to deemed rate from	\$24,149
3.44% to 4.12%	(1.050)
Decrease in Return on Equity from 9.12% to 8.98%	(1,958)
Increase in depreciation expense due to updating 2012 capital additions to actual	2,131
Change in PILs as a result of updating 2012 CCA and tax returns to actual	11,614
Sub-Total	\$35,936
Discrepancy explained in 4-Staff-40s	\$(283)
Apprenticeship Tax Credit applied to 2013 PILs	(20,000)
Total	\$15,653

7-VECC-46

Ref: 7-Staff-24 b)

a) Please confirm if the GS< 50 ratio is set at the Status Quo value of 115.2% then the resulting Residential ratio that would maintain revenue neutrality is 94.3%. If not, what is the correct value?

SLHI Response

a) With reference to 7-Staff-24 b), if the GS < 50 ratio was set at 115.2%, the GS > 50 to 4,999 kW set at 119.85%, Street Lighting set at 83.00%, and USL set at 81.01%, SLHI confirms that the Residential ratio of 94.3% would maintain revenue neutrality.

8-Staff-43s – Loss Factors

Ref: 8-Staff-25

Ref: Exhibit 8, Schedule 1, page 12

Board staff understands from SLHI's response to Board staff interrogatory 8-Staff-25 that in its 2008 cost-of-service application, SLHI's approved Total Loss Factor ("TLF") of 1.0642 (6.42%) was labeled in error as TLF, when in fact is was SLHI's Distribution Loss Factor ("DLF") based on an average of distribution losses for 2002 to 2006 period. Board staff further understands that based on this explanation, SLHI has achieved a reduction of 1.03% in line losses in the past five years.

a) Given that the DLF component of SLHI's proposed TLF of 1.0897 (8.97%) at 1.0539 (5.39%) exceeds 5%, please explain what mitigating actions SLHI plans to take going forward to achieve further reductions in line losses.

SLHI Response

a) SLHI continues to plan voltage conversions as part of its mitigation strategy to reduce line losses. Also, since the line loss calculation is somewhat dependent on estimates related to unbilled kWh, SLHI strives to improve the process in order to make the unbilled kWh calculation as accurate as possible with the tools available.

The size and sparsely populated service territory results in long spans of line with no customers which contributes to SLHI's line loss. This is a characteristic of the area and therefore not in SLHI's control.

9-Staff-44s – Stranded Meters

Ref: 9-Staff-27

Sheet I7.1 from SLHI's 2007 Cost Allocation model shows a relative capital weighted meter cost of 1.08 for the GS < 50 kW class, compared to a Residential CWMC index of 1. This indicates that the cost of a conventional meter for the GS < 50 kW class was slightly higher than that for the Residential class, indicating a slightly higher incidence of polyphase meters. All else being equal, this would suggest that the NBV for stranded conventional meter for the GS < 50 kW class would also be higher than that for the Residential class, hence, the SMRR for the GS < 50 kW class should be higher than that for the Residential SMRR for the same recovery period.

SLHI's proposal is for a Residential SMRR of \$2.83/month and \$2.63/month for GS < 50 kW customers, with recovery for both being over two years.

The response to part d) of 9-Staff-27 provides alternative calculations that would result in a Residential SMRR of \$2.74/month and a GS < 50 kW SMRR of \$3.24/month.

a) Please provide SLHI's views of the preference for and appropriateness of its SMRRs as originally proposed and the alternatives calculated in response to 9-Staff-27 d).

SLHI Response

a) After reviewing the originally proposed SMRR and the response to 9-Staff-27 d), SLHI believes that it would be more appropriate to allocate the SMRR based on the weighted average cost for the installed smart meters as per the interrogatory. This method more closely adheres to the principle of cost causality and practicality as set out in *Guideline G-2011-0001: Smart Meter Funding and Cost Recovery – Final Disposition*. The original SMRR assumed that the weighting for each class was equal, and since the NBV of the stranded assets is not known on a class-specific basis then the SMRRs set out in interrogatory 9-Staff-27 d) are preferred.

Sioux Lookout Hydro Inc. EB-2012-0165 Response to Supplemental Interrogatories Page 30 of 30

9-VECC-47

Ref: Exhibit 2, Tab 5, Schedule 4

a) Preamble: SLHI is seeking to make an adjustment of \$24,722 to depreciation expense in order to refund, over four years, the difference in this expense as a result of changes in capitalization and asset lives. However, no amount is provided for interest as it done with similar changes when made under account 1575 and when a utility is changing to IFRS accounting. In a number of 2013 Cost of Service Settlements the parties have agreed that account 1576 and 1575 should be treated similarly (see or example Innisfil Hydro Distribution Settlement Agreement EB-2012-0139 pgs. 37 & 47).

Please calculate the weighted average capital costs (for the 4 years) for the PP&E adjustment and comment on the appropriateness of making this additional adjustment (credit) to the final revenue requirement.

SLHI Response

a) The weighted average capital costs (for the 4 years) for the PP&E adjustment are \$(5,914). (\$(24,722) * 5.98% * 4) In light of the Board's policy direction outlined in their letter dated July 17, 2012 and FAQ #2 issued in July 2012 which states with respect to Account 1576, "No interest carrying charges or a rate of return is permitted in this account." SLHI feels that this adjustment would not be appropriate.

T2 Corporation Income Tax Return

200

This form serves as a federal, provincial, and territorial corporation income tax return, unless the corporation is located in Quebec or Alberta. If the corporation is located in one of these provinces, you have to file a separate provincial corporation return.

All legislative references on this return are to the federal *Income Tax Act*. This return may contain changes that had not yet become law at the time of publication.

Send one completed copy of this return, including schedules and the *General Index of Financial Information* (GIFI), to your tax centre or tax services office. You have to file the return within six months after the end of the corporation's tax year.

For more information see www.cra.gc.ca or Guide T4012, T2 Corporation – Income Tax Guide.

DIVIDENDS RECEIVED, TAXABLE DIVIDENDS PAID, AND PART IV TAX CALCULATION

SCHEDULE 3

Name of corporation	Business Number	Tax year-end Year Month Day
SIOUX LOOKOUT HYDRO INC.	87053 8170 RC0001	2012-12-31

- This schedule is for the use of any corporation to report:
 - non-taxable dividends under section 83;
 - deductible dividends under subsection 138(6);
 - taxable dividends deductible from income under section 112, subsection 113(2) and paragraphs 113(1)(a), (b) or (d); or
 - taxable dividends paid in the tax year that qualify for a dividend refund.
- The calculations in this schedule apply only to private or subject corporations.
- Parts, sections, subsections, and paragraphs referred to on this schedule are from the federal Income Tax Act.
- A recipient corporation is connected with a payer corporation at any time in a tax year, if at that time the recipient corporation:
 - controls the payer corporation, other than because of a right referred to in paragraph 251(5)(b); or
 - owns more than 10% of the issued share capital (with full voting rights), and shares that have a fair market value of more than 10% of the fair market value of all shares of the payer corporation.
- File one completed copy of this schedule with your T2 Corporation Income Tax Return.
- "X" under column A if dividend received from a foreign source (connected corporation only).
- Enter in column F1, the amount of dividends received reported in column 240 that are eligible.
- Under column F2, enter the code that applies to the deductible taxable dividend.

not include dividends received from foreign non-affiliates.		Cor	mplete if payer corpora	tion is connected	
Name of payer corporation (from which the corporation received the dividend)	A	B Enter 1 if payer corporation is connected	C Business Number of connected corporation	Tax year-end of the payer corporation in which the sections 112/113 and subsection 138(6) dividends in column F were paid YYYY/MM/DD (See note)	E Non-taxable dividend under section 83
200		205	210	220	230

Note: If your corporation's tax year-end is different than that of the connected payer corporation, your corporation could have received dividends from more than one tax year of the payer corporation. If so, use a separate line to provide the information for each tax year of the payer corporation. For more details, consult the Help.

			Complete if payer co	rporation is connected	
F Taxable dividends deductible from taxable income under section 112, subsections 113(2) and 138(6), and paragraphs 113(1)(a), (b), or (d)*	efrom taxable (included in column F) as 113(2) and d paragraphs		G Total taxable dividends paid by connected payer corporation (for tax year in column D)	H Dividend refund of the connected payer corporation (for tax year in column D)**	Part IV tax before deductions F x 1 / 3 ***
240			250	260	270

Total (enter the amount from column F on line 320 of the T2 return and amount J in Part 2)

- * If taxable dividends are received, enter the amount in column 240, but if the corporation is not subject to Part IV tax (such as a public corporation other than a subject corporation as defined in subsection 186(3)), enter "0" in column 270. Life insurers are not subject to Part IV tax on subsection 138(6) dividends.
- ** If the connected payer corporation's tax year ends after the corporation's balance-due day for the tax year (two or three months, as applicable), you have to estimate the payer's dividend refund when you calculate the corporation's Part IV tax payable.

*** For dividends received from connected corporations:	Part IV tax =	Column F x Column H	
		Column G

TAX CALCULATION SUPPLEMENTARY - CORPORATIONS

Schedule 5

Corporation's name	Business Number	Tax year-end Year Month Day
SIOUX LOOKOUT HYDRO INC.	87053 8170 RC0001	2012-12-31

- Use this schedule if, during the tax year, the corporation:
 - had a permanent establishment in more than one jurisdiction (corporations that have no taxable income should only complete columns A, B and D in Part 1);
 - is claiming provincial or territorial tax credits or rebates (see Part 2); or
 - has to pay taxes, other than income tax, for Newfoundland and Labrador, or Ontario (see Part 2).
- Regulations mentioned in this schedule are from the Income Tax Regulations.
- For more information, see the T2 Corporation Income Tax Guide.
- Enter the regulation number in field 100 of Part 1.

<u> Part</u> 1 – Alloc		xable income				
100						
A Jurisdicti Tick yes if the co had a perma establishment	on orporation anent	B Total salaries and wages paid in jurisdiction	C (Bxtaxable income**) / G	D Gross revenue	E (D x taxable income**) / H	F Allocation of taxable income (C + E) x 1/2*** (where either G or H is

Total		129 G		169	1	

[&]quot;Permanent establishment" is defined in Regulation 400(2).

Notes:

- 1. After determining the allocation of taxable income, you have to calculate the corporation's provincial or territorial tax payable. For more information on how to calculate the tax for each province or territory, see the instructions for Schedule 5 in the T2 Corporation - Income Tax Guide.
- 2. If the corporation has provincial or territorial tax payable, complete Part 2.

^{**} If the corporation has income or loss from an international banking centre: the taxable income is the amount on line 360 or line Z of the T2 return plus the total amount not required to be included, or minus the total amount not allowed to be deducted, in calculating the corporation's income under section 33.1 of the federal Income Tax Act.

^{***} For corporations other than those described under Regulation 402, use the appropriate calculation described in the Regulations to allocate taxable income.

	Totals	5,770,920	292,895	·	•	144,765	5,919,050				426,282	5,637,533

Note: Class numbers followed by a letter indicate the basic rate of the class taking into account the additional deduction allowed. Class 1a: 4% + 6% = 10% (class 1 to 10%), class 1b: 4% + 2% = 6% (class 1 to 6%).

- * Include any property acquired in previous years that has now become available for use. This property would have been previously excluded from column 3. List separately any acquisitions that are not subject to the 50% rule, see Regulation 1100(2) and (2.2).
- ** Include amounts transferred under section 85, or on amalgamation and winding-up of a subsidiary. See the T2 Corporation Income Tax Guide for other examples of adjustments to include in column 4.
- *** The net cost of acquisitions is the cost of acquisitions (column 3) plus or minus certain adjustments from column 4. For exceptions to the 50% rule, see Interpretation Bulletin IT-285, Capital Cost Allowance - General Comments.
- **** Enter a rate only, if you are using the declining balance method. For any other method (for example the straignt-line method, where calculations are always based on the cost of acquisitions), enter N/A. Then enter the amount you are claiming in column 11.
- ***** If the tax year is shorter than 365 days, prorate the CCA claim. Some classes of property do not have to be prorated. See the T2 Corporation Income Tax Guide for more information.

SCHEDULE 31

INVESTMENT TAX CREDIT - CORPORATIONS

General information

- 1. For use by a corporation that during a tax year:
 - earned an investment tax credit (ITC);
 - is claiming a deduction against its Part I tax payable;
 - is claiming a refund of credit earned during the current tax year;
 - is claiming a carryforward of credit from previous tax years;
 - is transferring a credit following an amalgamation or wind-up of a subsidiary, as described under subsections 87(1) and 88(1) of the federal Income Tax Act;
 - · is requesting a credit carryback; or
 - is subject to a recapture of ITC.
- 2. References to parts, sections, and subsections on this schedule are from the federal *Income Tax Act* and the federal *Income Tax Regulations*. References to interpretation bulletins and information circulars are to the latest versions.
- 3. The ITC is eligible for a three-year carryback (if not deductible in the year earned). It is also eligible for a twenty-year carryforward.
- 4. Investments or expenditures, as defined in subsection 127(9) and Part XLVI of the federal *Income Tax Regulations*, that earn the ITC are:
 - qualified property (Parts 4 to 7);
 - expenditures that are part of the SR&ED qualified expenditure pool (Parts 8 to 17). Complete and file Form T661, Scientific Research and Experimental Development (SR&ED) Expenditures Claim;
 - pre-production mining expenditures (Parts 18 to 20);
 - apprenticeship job creation expenditures (Parts 21 to 23); and
 - · child care spaces expenditures (Parts 24 to 28).
- 5. Attach a completed copy of this schedule with the T2 Corporation Income Tax Return.
- 6. For more information on ITCs, see the section called "Investment Tax Credit" in the *T2 Corporation Income Tax Guide*, Information Circular IC 78-4, *Investment Tax Credit Rates*, and its related Special Release. Also, see Interpretation Bulletin IT-151, *Scientific Research and Experimental Development Expenditures*.
- For information on SR&ED, see Interpretation Bulletin IT-151 (consolidated), Scientific Research and Experimental Development Expenditures; Information Circular 86-4, Scientific Research and Experimental Development; Brochure RC4472, Overview of the Scientific Research and Experimental Development Program (SR&ED) Tax Incentive Program; Brochure RC4467, Support for your R&D in Canada and T4088, Guide to Form T661 Scientific Research and Experimental Development (SR&ED) Expenditures Claim.

- Detailed information -

- 1. For the purpose of this schedule, "investment" means:
 - The capital cost of the property (excluding amounts added by an election under section 21), determined without reference to subsections 13(7.1) and 13(7.4), minus the amount of any government or non-government assistance that the corporation has received, is entitled to receive, or can reasonably be expected to receive for that property when it files the income tax return for the year in which the property was acquired.
- 2. An ITC deducted or refunded in a tax year for a depreciable property, other than a depreciable property deductible under paragraph 37(1)(b), reduces the capital cost of that property in the next tax year. It also reduces the undepreciated capital cost of that class in the next tax year. An ITC for SR&ED deducted or refunded in a tax year will reduce the balance in the pool of deductible SR&ED expenditures and the adjusted cost base (ACB) of an interest in a partnership in the next tax year. An ITC from pre-production mining expenditures deducted in a tax year reduces the balance in the pool of deductible cumulative Canadian exploration expenses in the next tax year.
- 3. Property acquired has to be "available for use" before a claim for an ITC can be made.
- 4. Expenditures for SR&ED and capital costs for a property qualifying for an ITC must be identified by the claimant on Form T661 and Schedule 31 no later than 12 months after the claimant's income tax return is due for the tax year in which the expenditures or capital costs were incurred.
- 5. Partnership allocations Subsection 127(8) provides for the allocation of the amount that may reasonably be considered to be a partner's share of the ITCs of the partnership at the end of the fiscal period of the partnership. An allocation of ITC's is generally considered to be the partner's reasonable share of the ITCs if it is made in the same proportion in which the partners have agreed to share any income or loss and if section 103 of the Act is not applicable for the agreement to share any income or loss. Special rules apply to specified and limited partners. For more information, see Guide T4068-1, 2010 Supplement to the 2006 T4068, Guide for the T5013 Partnership Information Return.
- For SR&ED expenditures, the expression "in Canada" includes the "exclusive economic zone" (as defined in the Oceans Act to
 generally consist of an area that is within 200 nautical miles from the Canadian coastline), including the airspace, seabed and subsoil
 for that zone.

SIOUX LOOKOUT HYDRO INC. 87053 8170 RC0001

Name of corporation	Business Number	Tax year-end Year Month Day
SIOUX LOOKOUT HYDRO INC.	87053 8170 RC0001	2012-12-31

- Part 1 – Investments, expenditures and percentages ————————————————————————————————————	
Investments	Specified percentage
Qualified property acquired primarily for use in Newfoundland and Labrador, Prince Edward Island, Nova Scotia, New Brunswick, the Gaspé Peninsula, or a prescribed offshore region	10 %
Expenditures If you are a Canadian-controlled private corporation (CCPC), this percentage may apply to the portion that you claim of the SR&ED qualified expenditure pool that does not exceed your expenditure limit (see Part 10)	35 %
Note: If your current year's qualified expenditures are more than the corporation's expenditure limit (see Part 10), the excess is eligible for an ITC calculated at the 20 % rate.	
If you are a corporation that is not a CCPC that incurred qualified expenditures for SR&ED in any area in Canada	20 %
If you are a taxable Canadian corporation that incurred pre-production mining expenditures	
Before January 1, 2013	10 %
In 2013	5 %
After December 31, 2013	0 %
If you paid salary and wages to apprentices in the first 24 months of their apprenticeship contract for employment	10 %
If you incurred eligible expenditures after March 18, 2007, for the creation of licensed child care spaces for the children of your employees and, potentially, for other children	25 %

Part 2 – Determination o	f a qualifying	g corporation
--------------------------	----------------	---------------

Is the corporation a qualifying corporation?

101 1 Yes X

2 No

For the purpose of a refundable ITC, a **qualifying corporation** is defined under subsection 127.1(2). The corporation has to be a CCPC and the taxable income (before any loss carrybacks) for its previous tax year cannot be more than its **qualifying income limit** for the particular tax year. If the corporation is associated with any other corporations during the tax year, the total of the taxable incomes of the corporation and the associated corporations (before any loss carrybacks), for their last tax year ending in the previous calendar year, cannot be more than their qualifying income limit for the particular tax year.

Note: A CCPC calculating a refundable ITC, is considered to be associated with another corporation if it meets any of the conditions in subsection 256(1), except where:

- one corporation is associated with another corporation solely because one or more persons own shares of the capital stock of both corporations; and
- one of the corporations has at least one shareholder who is not common to both corporations.

If you are a **qualifying** corporation, you will earn a **100%** refund on your share of any ITCs earned at the 35% rate on qualified **current** expenditures for SR&ED, up to the allocated expenditure limit. The 100% refund does not apply to qualified **capital** expenditures eligible for the 35% credit rate. They are only eligible for the **40%** refund.

Some CCPCs that are **not qualifying** corporations may also earn a **100%** refund on their share of any ITCs earned at the 35% rate on qualified **current** expenditures for SR&ED, up to the allocated expenditure limit. The expenditure limit can be determined in Part 10. The 100% refund does not apply to qualified **capital** expenditures eligible for the 35% credit rate. They are only eligible for the **40%** refund.

The 100% refund will not be available to a corporation that is an **excluded corporation** as defined under subsection 127.1(2). A corporation is an excluded corporation if, at any time during the year, it is a corporation that is either controlled by (directly or indirectly, in any manner whatever) or is related to:

- a) one or more persons exempt from Part I tax under section 149;
- b) Her Majesty in right of a province, a Canadian municipality, or any other public authority; or
- c) any combination of persons referred to in a) or b) above.

Part 3 – Cor	porations	in the t	farming	industr	у -
--------------	-----------	----------	---------	---------	-----

Complete this area if the corporation is making SR&ED contributions

Is the corporation claiming a contribution in the current year to an agricultural organization whose goal is to finance SR&ED work (for example, check-off dues)?

. 102

2 No X

 $Contributions \,to\,agricultural\,organizations\,for\,SR\&ED$

103

If yes, complete Schedule 125, Income Statement Information, to identify the type of farming industry the corporation is involved in. For more information on Schedule 125, see the Guide to the General Index of Financial Information (GIFI) for Corporations. Enter contributions on line 350 of Part 8.

SR&ED

- Part 8 - Qualified SR&ED expenditures
Current expenditures
Current expenditures (from line 557 on Form T661)
Add:
Contributions to agricultural organizations for SR&ED* Current expenditures (including contributions to agricultural organizations for SR&ED at line 103 in Part 3)* (from line 557 on Form T661) 350
Capital expenditures (from line 558 on Form T661) 360
Repayments made in the year (from line 560 on Form T661)
Total (this must equal the amount from line 570 on Form T661)*
* Do not file form T661 if you are only claiming contributions made to agricultural organizations for SR&ED.
- Part 9 – Components of the SR&ED expenditure limit calculation ————————————————————————————————————
Part 9 only applies if the corporation is a CCPC.
 Note: A CCPC that calculates SR&ED expenditure limit, is considered to be associated with another corporation if it meets any of the conditions in subsection 256(1), except where: one corporation is associated with another corporation solely because one or more persons own shares of the capital stock of the
corporation; and
one of the corporations has at least one shareholder who is not common to both corporations.
Is the corporation associated with another CCPC for the purpose of calculating the SR&ED expenditure limit?
Complete lines 390 and 398, if you answered no to the question at line 385 above or if the corporation is not associated with any other corporations (the amounts for associated corporations will be determined on Schedule 49).
Enter your taxable income for the previous tax year* (prior to any loss carry-backs applied).
Enter your taxable capital employed in Canada for the previous tax year 3,019,989 minus \$10 million. If this amount is nil or negative, enter "0". If this amount is over \$40 million, enter \$40 million.
* If either of the tax years referred to at line 390 is less than 51 weeks, multiply the taxable income by the following result: 365 divided by the number of days in these tax years.

Part 10 – Calculation of SR&ED expenditure limit for a CCPC ————————————————————————————————	
For stand-alone corporations:	
Calculation 1A: Tax year ends before January 1, 2010.	
[(\$7,000,000 minus (10 x (line 390 from Part 9 or \$400,000, whichever is more))) x ((\$40,000,000 minus	
line 398 from Part 9) divided by \$40,000,000)]	
Calculation 1: Tax year starts after December 31, 2009.	
[(\$8,000,000 minus (10 x (line 390 from Part 9 or \$500,000, whichever is more))) x ((\$40,000,000 minus	
line 398 from Part 9) divided by \$40,000,000)]	
Calculation 2: Tax year straddles January 1, 2010.	
EE + [(FF minus EE) x (GG divided by HH)] where,	
EE = [(\$7,000,000 minus (10 A)) x ((\$40,000,000 minus B) divided by \$40,000,000)];	
FF = [(\$8,000,000 minus (10 x (line 390 from Part 9 or \$500,000, whichever is more))) x ((\$40,000,000 minus line 398 from Part 9) divided by \$40,000,000)];	
GG = number of days in the tax year after December 31, 2009;	
HH = number of days in the tax year.	
Amount A 408 Amount B 409	
A = the greater of:	
• \$400,000; and	
 your taxable income for the last tax year* ending in the previous calendar year (tax years ending in 2008) (prior to any loss carry-backs applied). 	
B = the taxable capital employed in Canada for the last tax year ending in the previous calendar year (tax years ending in 2008) minus \$10 million. If this amount is nil or negative, enter "0". If this amount is over \$40 million, enter \$40 million.	
* If any of the tax years referred to in A above are less than 51 weeks, gross up the taxable incomes for those tax years by the ratio that 365 is of the number of days in those tax years. Use these grossed up amounts when calculating the expenditure limit.	
Enter the amount from Calculation 1A, 1 or 2, whichever is applicable3,000,000	G*
For associated corporations:	
f associated, the allocation of the SR&ED expenditure limit as provided on Schedule 49	H*
Where the tax year of the corporation is less than 51 weeks, calculate the amount of the expenditure limit as follows:	
Line G or H Number of days in the tax year 366 =	ı
365	
Your SR&ED expenditure limit for the year (enter the amount from line G, H, or I, whichever applies)	
Amount G or H cannot be more than \$3,000,000.

RECAPTURE - SR&ED

Part 16 – Calculating the recapture of ITC for corporations and corporate partnerships – SR&ED

You will have a recapture of ITC in a year when all of the following conditions are met:

- you acquired a particular property in the current year or in any of the 20 previous tax years, if the credit was earned in a tax year ending after 1997 and did not expire before 2008;
- you claimed the cost of the property as a qualified expenditure for SR&ED on Form T661;
- the cost of the property was included in calculating your ITC or was the subject of an agreement made under subsection 127(13) to transfer qualified expenditures; and
- you disposed of the property or converted it to commercial use after February 23, 1998. This condition is also met if you disposed of or converted to commercial use a property that incorporates the particular property previously referred to.

Note:

The recapture **does not apply** if you disposed of the property to a non-arm's length purchaser who intended to use it all or substantially all for SR&ED. When the non-arm's length purchaser later sells or converts the property to commercial use, the recapture rules will apply to the purchaser based on the historical ITC rate of the original user.

You will report a recapture on the T2 return for the year in which you disposed of the property or converted it to commercial use. In the following tax year, add the amount of the ITC recapture to the SR&ED expenditure pool.

If you have more than one disposition for calculations 1 and 2, complete the columns for each disposition for which a recapture applies, using the calculation formats below.

Amount of ITC you originally calculated for the property you acquired, or the original user's ITC where you acquired the property from a non-arm's length party, as described in the note above	Amount calculated using ITC rate at the date of acquisition (or the original user's date of acquisition) on either the proceeds of disposition (if sold in an arm's length transaction) or the fair market value of the property (in any other case)	Amount from column 700 or 710, whichever is less
700	710	

A	В	С
Rate that the transferee used in determining its ITC for qualified expenditures under a subsection 127(13) agreement	Proceeds of disposition of the property if you dispose of it to an arm's length person; or, in any other case, enter the fair market value of the property at conversion or disposition	Amount, if any, already provided for in Calculation 1 (This allows for the situation where only part of the cost of a property is transferred under a subsection 127(13) agreement.)
720	730	740

alculation 2 (continued) – Only if you transf	erred all or a part of the qualified expenditure to a	

Calculation 3 —

As a member of the partnership, you will report your share of the SR&ED ITC of the partnership after the SR&ED ITC has been reduced by the amount of the recapture. If this amount is a positive amount, you will report it on line 550 in Part 12. However, if the partnership does not have enough ITC otherwise available to offset the recapture, then the amount by which reductions to ITC exceed additions (the excess) will be determined and reported on line KK below.

Corporate partner's share of the excess of SR&ED ITC (amount to be reported on line NN in Part 17) 760

RECAPTURE - CHILD CARE SPACES

$_{ extsf{ iny Part}}$ Part 28 – Calculating the recapture of ITC for corporations and corporate partnerships – Child care spaces —	
The ITC will be recovered against the taxpayer's tax otherwise payable under Part I of the Act if, at any time within 60 months of the day on which the taxpayer acquired the property:	
the new child care space is no longer available; or	
property that was an eligible expenditure for the child care space is:	
 disposed of or leased to a lessee; or 	
- converted to another use.	
If the property disposed of is a child care space, the amount that can reasonably be considered to have been included in the original ITC (paragraph 127(27.12)(a))	ZZZ
In the case of eligible expenditures (paragraph 127(27.12)(b)), the lesser of:	
The amount that can reasonably be considered to have been included in the original ITC 795	
25% of either the proceeds of disposition (if sold in an arm's length transaction) or the fair market value (in any other case) of the property	
Amount from line 795 or line 797, whichever is less	000
Corporate partnerships	
As a member of the partnership, you will report your share of the child care spaces ITC of the partnership after the child care spaces ITC has been reduced by the amount of the recapture. If this amount is a positive amount, you will report it on line 782 in Part 26. However, if the partnership does not have enough ITC otherwise available to offset the recapture, then the amount by which reductions to ITC exceed additions (the excess) will be determined and reported on line PPP below.

SCHEDULE 546

CORPORATIONS INFORMATION ACT ANNUAL RETURN FOR ONTARIO CORPORATIONS

Name of corporation	Business Number	Tax year-end Year Month Day
SIOUX LOOKOUT HYDRO INC.	87053 8170 RC0001	2012-12-31

- This schedule should be completed by a corporation that is incorporated, continued, or amalgamated in Ontario and subject to the Ontario Business Corporations Act (BCA) or Ontario Corporations Act (CA), except for registered charities under the federal Income Tax Act. This completed schedule serves as a Corporations Information Act Annual Return under the Ontario Corporations Information Act.
- Complete parts 1 to 4. Complete parts 5 to 7 only to report change(s) in the information recorded on the Ontario Ministry of Government Services (MGS)
 public record.
- This schedule must set out the required information for the corporation as of the date of delivery of this schedule.
- A completed Ontario Corporations Information Act Annual Return must be delivered within six months after the end of the corporation's tax year-end.
 The MGS considers this return to be delivered on the date that it is filed with the Canada Revenue Agency (CRA) together with the corporation's income tax return.

art 1 – Identification	the public record maintained by the MGS.		ormation will be sent to the
Corporation's name (exactly as shown on the MG SIOUX LOOKOUT HYDRO INC.	S public record)		
urisdiction incorporated, continued, or amalgamated, hichever is the most recent	110 Date of incorporation or amalgamation, whichever is the most recent	Year Month Day	120 Ontario Corporation No.

⊢Pa	rt 6 – Language of preference		
600	Indicate your language of preference by entering 1 for English or 2 for French. This is the language of preference recorded on the MGS public record for communications with the corporation. It may be different from line 990 on the T2 return.		

SCHEDULE 552

ONTARIO APPRENTICESHIP TRAINING TAX CREDIT

Name of corporation	Business Number	Tax year-end Year Month Day
SIOUX LOOKOUT HYDRO INC.	87053 8170 RC0001	2012-12-31

- Use this schedule to claim an Ontario apprenticeship training tax credit (ATTC) under section 89 of the Taxation Act, 2007 (Ontario).
- The ATTC is a refundable tax credit that is equal to a specified percentage (25% to 45%) of the eligible expenditures incurred by a corporation for a qualifying apprenticeship. Before March 27, 2009, the maximum credit for each apprentice is \$5,000 per year to a maximum credit of \$15,000 over the first 36-month period of the qualifying apprenticeship. After March 26, 2009, the maximum credit for each apprentice is \$10.000 per year to a maximum credit of \$40,000 over the first 48-month period of the qualifying apprenticeship. The maximum credit amount is prorated for an employment period of an apprentice that straddles March 26, 2009.
- Eligible expenditures are salaries and wages (including taxable benefits) paid to an apprentice in a qualifying apprenticeship or fees paid to an employment agency for the provision of services performed by the apprentice in a qualifying apprenticeship. These expenditures must be:
 - paid on account of employment or services, as applicable, at a permanent establishment of the corporation in Ontario;
 - for services provided by the apprentice during the first 36 months of the apprenticeship program, if incurred before March 27, 2009; and
 - for services provided by the apprentice during the first 48 months of the apprenticeship program, if incurred after March 26, 2009.
- An expenditure is not eligible for an ATTC if:
 - the same expenditure was used, or will be used, to claim a co-operative education tax credit; or
 - it is more than an amount that would be paid to an arm's length apprentice.
- An apprenticeship must meet the following conditions to be a qualifying apprenticeship:
 - the apprenticeship is in a qualifying skilled trade approved by the Ministry of Training, Colleges and Universities (Ontario); and
 - the corporation and the apprentice must be participating in an apprenticeship program in which the training agreement has been registered under the Ontario College of Trades and Apprenticeship Act, 2009 or the Apprenticeship and Certification Act, 1998 or in which the contract of apprenticeship has been registered under the Trades Qualification and Apprenticeship Act.
- Make sure you keep a copy of the training agreement or contract of apprenticeship to support your claim. Do not submit the training agreement or contract of apprenticeship with your T2 Corporation Income Tax Return.
- File this schedule with your T2 Corporation Income Tax Return.

- Part 1 - Corporate information (please print) -

110 Name of person to contact for more information	120 Telephone number including area	code
Deanne Kulchyski	(807) 737-3800	
Is the claim filed for an ATTC earned through a partnership? *		2 No X
ii yes to the question at line 150, what is the name of the partnership?		
Enter the percentage of the partnership's ATTC allocated to the corporation	<u>170</u>	%
* When a corporate member of a partnership is claiming an amount for eligible expenditures incurred by a partnership as if the partnership were a corporation. Each corporate partner, other than a limited partner, shouthe partner's share of the partnership's ATTC. The total of the partners' allocated amounts can never exceed to	uld file a separate Schedule 552 to claim	
Part 2 – Eligibility ————————————————————————————————————		
1. Did the corporation have a permanent establishment in Ontario in the tax year?		2 No
2. Was the corporation exempt from tax under Part III of the <i>Taxation Act</i> , 2007(Ontario)?	210 1 Yes	2 No X
If you answered no to question 1 or yes to question 2, then you are not eligible for the ATTC.		

35.000 %

Part 3 - S	pecified	percentage -
------------	----------	--------------

For eligible expenditures incurred before March 27, 2009:

- If line 300 is \$400,000 or less, enter 30% on line 310.
- If line 300 is \$600.000 or more, enter 25% on line 310.
- If line 300 is more than \$400,000 and less than \$600,000, enter the percentage on line 310 using the following formula:

For eligible expenditures incurred after March 26, 2009:

- If line 300 is \$400,000 or less, enter 45% on line 312.
- If line 300 is \$600,000 or more, enter 35% on line 312.

Specified percentage

- If line 300 is more than \$400,000 and less than \$600,000, enter the percentage on line 312 using the following formula:

* If this is the first tax year of an amalgamated corporation and subsection 89(6) of the *Taxation Act, 2007* (Ontario) applies, enter salaries and wages paid in the previous tax year by the predecessor corporations.

Part 4 – Calculation of the Ontario apprenticeship training tax credit -

Complete a **separate entry** for each apprentice that is in a qualifying apprenticeship with the corporation. When claiming an ATTC for repayment of government assistance, complete a **separate entry** for each repayment, and complete columns A to G and M and N with the details for the employment period in the previous tax year in which the government assistance was received.
