**Subject:** HUGE PROBLEM IN WAINFLEET RE TURBINES. PLEASE READ STAT!

Please do not under any circumstance approve the Station Road, Wainfleet site next to our airport/parachute club.

Loeffens and Rankin must be stopped. This cannot go ahead. We the people of Wainfleet DO NOT WANT THESE TURBINES.

PLEASE DO NOT APPROVE THESE TURBINES FOR STATION ROAD IN WAINFLEET, IN PARTICULAR!

Our property together with 16 other properties during the wee hours of May 26, 2013 at exactly 2:10 am our STOP THE WIND TURBINE SIGNS WERE RIPPED OFF OF OUR

PROPERTIES. There were three (3) assailants in the vehicle. The Police were notified and they were caught. They hid their vehicle behind the barn and under the tree at the old Secen Farm.

The yellow brick house where these young guys party all weekend. This old Secen Farm is the property that the Loeffens and Rankin are planning to put two (2) turbines on. The Police Supervisor said that these guys will have to purchase and replace all of the signs they vandalized.

We are looking at 16 trespassing charges here. The name the police gave us as the driver of the vehicle was Stutz. The assailant in the front passenger side wearing a dark green shirt, got out of the vehicle and ran up and over to the lakeside and disappeared. The other assailant remained in the back seat together with the huge pile of signs and posts and tried to hide his face from view.

He was a buzzed cut light haired individual. How dare these guys from the intended wind turbine site trespass onto our properties and remove and vandalize our Stop the Turbine signs.
