Dear Ms Walli,

Enbridge Gas Distribution Inc. ("EGD")
2013 Open Bill Access Application
Board File No.: EB-2013-0099
Our File No.: 339583-000161

We are writing on behalf of Canadian Manufacturers & Exporters ("CME"). In our letter of intervention, filed with the Board yesterday, we did not address EGD's proposal that this matter proceed directly to ADR before the discovery/interrogatory process occurs.

In light of the issues to be addressed in this application, and the fact that there have been ongoing stakeholder consultations on the related topics, CME does not oppose EGD's proposal.

CME takes this position with one caveat. If these issues cannot be fully settled at the ADR, and discovery/interrogatories then take place, the Board should canvas EGD and the parties on the value of undertaking a second ADR after the discovery/interrogatory process. This would only be required if settlement is not achieved at the initial ADR.

Yours very truly,
