

BOARD STAFF QUESTIONS
NRG QRAM Application EB-2013-0205

1. In Schedule 2 of the Application which shows the historical Purchased Gas Commodity Variance Account for the period July 2012 to June 2013, the commodity cost for the month of September is \$0.286773 per cubic meter. Please provide reasons for the high commodity cost in the month of September 2012.

2. Please provide the cost components that are included in commodity costs related to Western deliveries including fuel costs and tolls. Please provide the monthly commodity costs including a breakdown of the cost components for the period January 1 to May 31, 2013.
