RESPONSE TO BOARD STAFF QUESTIONS

NRG QRAM Application EB-2013-0205

- 1. The commodity cost for the month of September, 2012 was the result of the requirement for NRG to sell gas in order to remain in balance on its direct purchase contract with Union Gas. This is explained in detail in Schedule 1, line 11, page 2 through line 15, page 3.
- 2. The cost components that are included in the commodity costs related to the Western deliveries including fuel costs and tolls for the period January 1 to May 31, 2013 are shown in Schedules 3 and 4. In particular, Schedule 3 shows the monthly volumes purchased (or forecast to be purchased) in cubic meters, along with the price per cubic meter and the total costs (see the line labelled Western Delivery). The TCPL tolls associated with moving the Western deliveries to Ontario are also shown in Schedule 4 in the line labelled TCPL Transportation. Schedule 4 shows the monthly prices in \$ per GJ. Schedule 4 also provides the TCPL tolls and fuel ratios.
