Attn: Ms. Kirsten Walli
Board Secretary

June 14, 2013

Filed Electronically

Dear Ms. Walli:

**RE: Union Gas Limited (Union) Application for 2012 Earnings Sharing and 2012
Deferral Account Balances Disposition (Application)
File No. EB-2013-0109**

In response to the Ontario Energy Board (Board) Notice of Application dated 6 June, 2013, Tenaska Marketing Canada, a division of TMV Corp. (Tenaska) is hereby filing a request to intervene in the referenced proceeding.

Tenaska is a natural gas marketer and actively participates in the natural gas market in Eastern Canada. Tenaska is a shipper on virtually all Canadian natural gas pipelines, managing pipeline capacity as well as gas storage assets.

Tenaska currently intends to be active in the proceeding.

Tenaska's primary interest in the proceeding relates to the effects of Union's asset and supply portfolio optimization activities on the natural gas market. Specifically, Tenaska is concerned that if utilities such as Union are not appropriately incentivized to engage in such optimization activities, it is likely they will limit their activities resulting in reduced secondary market liquidity, which will ultimately lead to a less efficient natural gas market and higher energy prices for consumers.

Tenaska does not intend to seek an award of costs.

All communications relating to this proceeding should be directed to:
