Attention: Kirsten Walli
Board Secretary

Dear Ms. Walli:

Re: Varna Wind Inc. Leave to Construct Application
Board File No. EB-2012-0442
Correspondence from Gerhard and Heather Ritzema (the "Ritzemas") dated
June 19, 2013

We are counsel to Varna Wind, Inc. (the "Applicant") in the above-noted proceeding.

On June 19, 2013, the Ritzemas sent a letter to the Board requesting a) that the Applicant and all parties address Centennial Road as such and not as "Concession 5 Rd" and b) that a pole placement in a right of way adjacent to the Ritzema property be modified. The Applicant will address each of these requests in turn. At the outset, however, the Applicant notes that it was not sent the letter and only became aware of it upon seeing it posted on the Board's website.

The Applicant agrees that confusion among parties should be avoided. The Applicant will refer to Centennial Road as such and not as "Concession 5 Rd."

The Ritzemas also request that Pole #82 for the transmission line be moved to the south side of Centennial Road. In response, the Applicant advises that it is not possible to move the pole in question to the south side of Centennial Road. The reason that it is not possible to do so is that Centennial Road deviates south of the road allowance at the point in question. Consequently, there is no space to set the pole within the road allowance on the south side of Centennial Road. This situation is illustrated in the map attached hereto as Exhibit "A", which is the map referred to by Ritzemas in their June 19, 2013 letter and the map included by the Applicant in its answers to interrogatories of May 27, 2013. The green lines mark the right of way area along

Centennial Road, and it is therefore possible to see on the map how Centennial Road deviates south of the road allowance at the location in question.

Please contact the undersigned if you have any questions in relation to the foregoing.

Sincerely,

Signed in the original

George Vegh
