Ms Kirsten Walli  
Secretary to the Board  
The Ontario Energy Board  
~~Gentlemen:~~

Ms Walli:

**regarding Gas Marketing License renewal: GM-2008-0007**

**Electricity Marketing License renewal: ER-2008-0008**

We recognize that we are very late in delivering these applications to your attention and we wish to apologize. We respectfully request that the Board grant us a temporary extension to carry on business during the time in which you and the Board examine our renewal applications.

Until we receive any such extension, we will NOT accept or pursue any new customers.

We are late in responding to your renewal application request for reasons that we would gratefully appreciate you considering:

We have spent some time revisiting the industry and determining the best course of action for the business in terms of strategic direction given the substantive changes that have taken place in the regulatory and competitive environments. We have concluded by defining a very unique product design coupled with a very passive customer online customer acquisition strategy.

We are not in a rush and we are prepared to be patient as we recognize the lateness of our applications.

Yours truly,
