Dear Ms. Walli:

**Re: Toronto Hydro-Electric System Limited (“THESL”)
EB-2013-0273: Consultation on Proposed Revisions to Regulated Price Plan Manual**

THESL writes in respect of the above-noted matter.

On August 2, 2013, the Ontario Energy Board (the “Board”) released proposed revisions to the Regulated Price Plan (“RPP”) to change the manner in which the variance settlement amount that consumers pay or receive, when they exit the RPP, is calculated.

As suggested in the Board’s letter, THESL has in recent years also observed an increase in the number of customers repeatedly switching back and forth between the RPP and other pricing options, with the potential to obtain an unwarranted financial benefit from the corresponding RPP variance settlement amount. As a result, THESL is fully supportive of the proposed amendments to eliminate the possibility of repeatedly obtaining this unwarranted financial benefit.

Please address all your comments and questions to my attention.

Yours truly,
