Toronto ON M4P 1E4

**RE: EB-2010-0379 STAFF REPORT ON PERFORMANCE MEASUREMENT**

On behalf of the Federation of Rental-housing Providers of Ontario ("FRPO"), we have appreciated being involved in the Renewed Regulatory Framework for Electricity process. We received the report of Board Staff on July 4 and respect the efforts invested to evolve and improve performance measurement. With other priorities, FRPO appreciated the direct involvement of ratepayer groups in the Working Group and did not invest additional time to formulate responses to the questions that solicited response.

However, given past collaboration with the School Energy Coalition ("SEC"), we have reviewed their submissions of August 12th. We endorse the well considered and articulated positions of SEC as constructive improvements to the report and encourage the Board's consideration and adoption of those submissions.

Respectfully Submitted on Behalf of FRPO,

Dwayne R. Quinn  
Principal  
DR QUINN & ASSOCIATES LTD.
