To the Ontario Energy Board,

Attached is our application for Unit Sub-Metering Licence renewal. Please accept our apologies for not renewing our licence in a timely manner. Since we were issued our licence in 2008, some of the key parties have left the company and new individuals have since joined. We were confused about receiving an invoice for our Annual Registration Fee for the period of April 1, 2013 to March 31, 2014. Now that we understand the process and timelines, we will take responsibility in ensuring that the next time we are well aware of our licence expiry date and timelines that need to be followed.

In light of our renewal application being submitted only a few days before our licence expires, we would like to ask if you could please extend the term of our current licence until the board has had an opportunity to make a final decision as we are currently providing sub-metering service.

David Hamilton, President of Provident Energy Management Inc, is currently away on vacation so we cannot have him sign the application form until his return on August 26th. In speaking with Irina at the OEB, she said that we could mail our application as is without his signature and then when David returns from vacation we will resubmit the application with his signature.

If you require any further information, please feel free to contact me directly.

Sincerely,

Cori Weir
