Dear Ms Walli:

Re: EB-2013-0075 - EGDI - Demand Side Management - Clearance of Variance Accounts – GEC Submission

Since our submission of August 9th counsel for GEC has had an opportunity to discuss the matters raised in our letter with counsel for Enbridge. While there remains some confusion as to the availability of the Marbek report as discussed in GEC's letter of August 9, to the extent that issues arise in respect of the applicability of findings contained in the Marbek study, GEC believes that the appropriate forum for such issues is the Technical Evaluation Committee and it appears that Enbridge agrees. GEC is also content to have an initial discussion of its general concerns in regard to confidentiality and distribution of evaluation reports at the Committee. Accordingly, GEC is not seeking any direction of the Board at this time and asks the Board to disregard its earlier submission. GEC supports the clearance of the 2011 DSM accounts in accordance with the application filed.

Sincerely,
