Toronto, ON M4P 1E4

Re: Niagara Wind Corporation leave to construct
Application Board File No. EB-2013-0203

Dear Mr. Walli:

We are writing with respect to Niagara Wind Corporation's application to install 44 (forty-four) km of high voltage transmission lines. We are of the opinion that this project will have a negative impact on our health & property values.

We also feel that the deadline of Aug. 27th is unjust & unacceptable. We are not educated in the electrical & high voltage transmission lines terminology or are unable to understand the full problems that we could be facing. Therefore an extension of time is required in order to do research & be better prepared.

We are also concerned about the number of errors in the application letter printed in the newspaper especially with regards to accessing the OEB documents on your website & the contact information.

We look forward to hearing from you and can be reached at the above address, or at our home phone number [REDACTED]

Sincerely,

Gerald & Barbara Blagden
