Toronto, ON M4P 1E4

Dear Sir/Madam:

Re: Application for an Electricity Generation Licence: FIT-FT3B1JC

Please see enclosed two (2) fully executed copies of the OEB Application for an Electricity Generation Licence for the South Dundas Windfarm Limited Partnership. I have also enclosed two (2) copies of the OPA Notice to Proceed received for the project on July 25, 2013. The South Branch Wind Farm is a 30 megawatt FIT wind project located in eastern Ontario expected to enter into commercial operations in December 2013.

We sent our \$1,000 non-refundable application fee to the OEB in early June 2013 under separate cover.

Please let us know if you have any questions.

Yours very truly,

Ryan J. Brown
