September 2, 2013.

Dear Ms. Walli,

Re: Amended Notice of Application
Application for Leave to Construct Transmission Facilities by:
Niagara Region Wind Corporation ("NRWC")
Board File Number EB-2013-0203

We, Archie and Nancy Huizinga are the owners of land along both the north and south sides of the Canborough Road in the Township of West Lincoln.

According to the two letters that we have received, we understand that the Niagara Region Wind Corporation's proposed Transmission Facilities will be constructed along several thousand feet of our dairy farm and poultry farm property. We have several concerns about the form of agreement that will be offered to landowners affected by the route and location of the transmission lines.

We request permission to be an active part in this hearing and therefore request intervenor status..

We would like to voice our opinions and explain our concerns at an oral hearing not a written hearing as proposed. We feel that these lines will deeply impact our dairy cattle and poultry and will also cause an adverse financial burden to us as well as our neighbours. We strongly believe that an oral hearing is the only fair way that our concerns can be adequately addressed.

Yours truly,

Archie and Nancy Huizinga.

Cc Mr. Tim Hudak, MPP
