Subject: File number EB-2013-0203

Dear Ms. Kirsten Walli;

The farm my wife and I own along Thirty Rd. and Fly Rd. may be affected by the transmission line proposed by the Niagara Region Wind Corporation.

We request to be an intervener in the hearing for Niagara Region Wind Corporation - File number EB-2013-0203

The farm is tile drained with the main drain running parallel to Thirty Rd. on the west and has a major wood lot on the north side of Fly Rd.
and is very close to bedrock and electrical grounds are not very good along the west side (Thirty Rd.)

We are concerned how this transmission line will affect our property.
