VIA RESS, EMAIL and COURIER

Ms Kirsten Walli
Board Secretary
Ontario Energy Board
2300 Yonge Street, Suite 2700
Toronto, Ontario, M4P 1E4

Dear Ms Walli:

**Re: Enbridge Gas Distribution Inc. ("Enbridge")
EB-2012-0459 – System Reliability**

Enbridge's letter dated August 30, 2013 was intended to advise the Board and interested parties about the cost associated with the potential options available to Enbridge to satisfy its Peak Day requirements in 2014. One of those options (Option 4) would be to contract for one year FT transportation at an annual cost of \$97.16 million. Enbridge also wanted to inform parties that the acquisition of this FT service would mean that Enbridge would have unutilized transport during the summer of 2014 and the associated cost of that unutilized capacity would be \$55.0 million which is already included in the total annual cost of \$97.16 million.

Enbridge acknowledges the concerns raised by CME and FRPO in their recent responding letters, and recognizes the need for further clarification about the Company's plans to meet Peak Day requirements for 2014.

To this end, Enbridge proposes to meet with all interested stakeholders on Wednesday, October 2, from 1:30pm to 4:00pm to answer stakeholder questions and explain impacts to the 2014 Gas Supply portfolio and to discuss possible alternatives for the recovery of costs. The meeting will be held at Suite 1905 (the Enbridge suite), 2300 Young St., in Toronto. For those parties who are unable to attend in person, a teleconference option will be offered.

Enbridge hopes that this meeting will satisfy stakeholders and provide sufficient time to have an agreement upon a 2014 supply portfolio in time for the January 1, 2014 QRAM application to be filed in early December 2013.

September 13, 2013

Ms. Walli

Please advise Shari Lynn Spratt, Lorraine Chiasson, Robert Bourke or myself if you are planning to attend the meeting on October 2, 2013, and whether you will be participating in person, or by teleconference.

Yours Truly,
