Dear Ms. Walli:

**EB-2012-0137 – Hydro One Remote Communities Inc. 2013 Revenue Requirement and Rates Application – Response to Board Staff and Intervenor Comments on Draft Rate Order**

---

Hydro One Remote Communities Inc. ("Remotes") is providing an updated Draft Rate Order using the current template as suggested by Board Staff.

Remotes notes that neither Board Staff nor any intervenor has objected to the calculation of the draft foregone revenue rate riders or the timeframe for recovery of these revenues proposed in the draft Rate Order. Remotes therefore requests, that the Board accept the proposed rates as presented.

In its Submission dated September 9, 2013, Board staff suggested that ambiguity would be avoided if the Board's Rate Order were to state that the tariff does not yet apply to Non-Standard A customers in the grid-connected communities. Remotes' response is that there is no ambiguity. The Board's Decision and Order approved both Standard A and non-Standard A rates for grid-connected geographically remote customers.

Inclusion of these Board-approved rates in the Rate Order not only accurately reflects the Board's Decision and Order, but also provides approved rates for the ongoing discussions with Cat Lake and Pikangikum. These communities are assisted by knowing the applicable rates prior

to making final decisions to be served by Remotes. Remotes submits that the Board-approved Standard A, grid-connected rate should be included in the Rate Order to reduce potential confusion for the communities and for the Government as these approvals are sought.

Additionally, Remotes further notes that many of the communities it currently serves are contemplating grid connections. As stated in its Application, Remotes believes that the approval of rates for grid-connected, geographically remote customers will give the communities it currently serves the option of being served by an established distribution company. The Board-approved rates from this proceeding are generic in nature and will be applicable to any grid-connected, geographically remote community that Remotes serves.

Sincerely,

ORIGINAL SIGNED BY SUSAN FRANK

## **NON STANDARD A YEAR ROUND RESIDENTIAL SERVICE CLASSIFICATION – R2**

This classification refers to a residential service that is the principal residence of the customer. This classification may include additional buildings served through the same meter, provided they are not rental income units. To be classed as year round residential, all of the following criteria must be met:

- Occupants must state that this is their principal residence for purposes of the Income Tax Act;
- The occupant must live in this residence for at least 8 months of the year;
- The address of this residence must appear on the occupant's electric bill, driver's licence, credit card invoice, property tax bill, etc.;
- Occupants who are eligible to vote in Provincial or Federal elections must be enumerated for this purpose at the address of this residence.

Further servicing details are available in the distributor's Conditions of Service.

### **APPLICATION**

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

## **STREET LIGHTING SERVICE CLASSIFICATION**

The energy consumption for street lights is estimated based on Remotes' profile for street lighting load, which provides the amount of time each month that the street lights are operating. Streetlight charges include:

- An energy charge based on installed load, at a rate approved annually (Dollars per kWh x # of fixtures x billing);
- A pole rental charge approved annually, when the light is attached to a Remotes' pole.

Remotes must approve the location of new lighting installations on its poles and the streetlight owner must enter into an agreement to use such poles. Remotes will make the electrical service connection of all streetlights to the distribution system. Further servicing details are available in the distributor's Conditions of Service.

## STANDARD A RESIDENTIAL ROAD/RAIL ACCESS SERVICE CLASSIFICATION

Standard A rates are applicable to all accounts paid directly or indirectly out of Federal and/or Provincial government revenue, subject to the following exceptions:

- Canada Post Corporation, Hydro One Inc. or a subsidiary of Hydro One Inc.
- social housing
- a recreational or sports facility
- a radio, television or cable television facility
- a library

Any Standard A account may be reclassified as General Service, Residential Year-Round or Residential-Seasonal at any time. To reclassify a Standard A account, a letter from the accountable Federal and/or Provincial Government agency must be provided to Remotes stating that the account does not receive any direct and/or indirect funding of a continuous nature. An alternative to this letter would be a declaration from a Director of the organization stating that the organization receives no funding. This declaration must be accompanied by an audited statement, which includes the funding source. An example of direct funding is an MTO account paid directly by MTO. An example of indirect funding is a First Nation School account paid by a First Nation through funding by Aboriginal Affairs and Northern Development Canada. Further servicing details are available in the distributor's Conditions of Service.

This classification is applicable to residential customers in communities that are accessible by a year-round road or by rail.

### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

## **STREET LIGHTING SERVICE CLASSIFICATION**

The energy consumption for street lights is estimated based on Remotes' profile for street lighting load, which provides the amount of time each month that the street lights are operating. Streetlight charges include:

- An energy charge based on installed load, at a rate approved annually (Dollars per kWh x # of fixtures x billing);
- A pole rental charge approved annually, when the light is attached to a Remotes' pole.

Remotes must approve the location of new lighting installations on its poles and the streetlight owner must enter into an agreement to use such poles. Remotes will make the electrical service connection of all streetlights to the distribution system. Further servicing details are available in the distributor's Conditions of Service.

## **APPLICATION**

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.
